Nutrition Decisions

Carolyn Dunn (PhD.), 2013 *Nutrition Decisions Eat Smart Move More* encourages personal health behavior change for a lifetime of good habits and good health among students. The text employs the Theory of Planned Behavior to empower students to make positive changes in their lives to improve their health. The most current research-based information on each concept is presented as well as specific strategies that can be employed for behavior change. Information is presented in modules that include one specific topic of instruction within the field of nutrition, physical activity, or other aspect of health and wellness. The material is research-based and well-referenced but is presented in an applied and consumer-oriented method that makes it easy for a non-science major to understand. Students are encouraged to check their own behavior based on the module content. Instructors will be given instructions on how to track a specific behavior, for example, record beverage consumption over 3 days. Suggestions will be given as to how students can make specific positive changes. Students will record their goal and how they intend to improve their overall health on their personal record sheet, which will be presented in the text as well as on the companion website. All chapters will include suggestions about how students can make incremental changes in their health behaviors. There will also be a myth versus fact section that will discuss the most common myths about foods and nutrition. Cumulated Index Medicus, 1993

Pediatric Nursing Debra L. Price, Julie F. Gwin, 2008-01-01. Part of the popular LPN Threads series, the new edition of this market-leading textbook presents a clear, well-organized exploration of pediatric nursing for LPN/LVN students. It integrates cutting-edge information with updated content, offering useful learning tools to reinforce fundamental concepts. Organized according to developmental stages, the book covers pediatric nursing from infancy to adolescence, with a separate chapter on end-of-life care for children and their families. With its easy-to-read, clear writing style, it provides exactly the right depth and breadth of content for LPN/LVNs.

Organization by developmental stages. UNIQUE Pediatric psychophysiological responses to bioterrorism and threats of bioterrorism are found in Chapter 1. UNIQUE Nursing Briefs stress important content-related points and help you prioritize information. Communication Alert boxes identify key tips specific to establishing successful nurse-patient-family communication. UNIQUE Community Cues address home care and community-based care issues and tie in nursing care with larger community-based problems such as nutrition, immunization, and health promotion. UNIQUE Data Cues list assessment data to help you recognize possible pediatric disorders. Nursing Care Plans with Critical Thinking Questions reinforce the nursing process as applied to pediatric disorders. 13 Skills follow the nursing process and are clearly presented in an Action/Rationale format and teach basic procedures used by the LPN/LVN in pediatric nursing settings. UNIQUE Chapter 3 includes a section on NIC/NOC classification systems used in many clinical and hospital settings. Online Resources appear at the end of each chapter and provide an opportunity for further study. Perforated Self-Assessment Workbook included at the back of the book features a variety of matching, multiple-choice study questions, case studies with critical thinking questions, and Internet activities. UNIQUE Critical Thinking Snapshots of selected clinical situations with brief scenarios are located after

the Critical Thinking Questions at the end of selected Nursing Care Plans and provide visual examples of specific disorders to help you apply critical thinking skills to clinical situations

UNIQUE January 2007 Recommended Childhood Immunization Schedule Appendix A for children adolescents and catch up growth immunizations provide the most up to date information for nurses and families

UNIQUE JCAHO s Lists of Dangerous Abbreviations Acronyms and Symbols provides guidelines for the prevention of medication administration error especially serious in pediatric dosages
