Hermitian Analysis John P. D'Angelo, 2013-09-24 Hermitian Analysis From Fourier Series to Cauchy Riemann Geometry provides a coherent integrated look at various topics from undergraduate analysis It begins with Fourier series continues with Hilbert spaces discusses the Fourier transform on the real line and then turns to the heart of the book geometric considerations This chapter includes complex differential forms geometric inequalities from one and several complex variables and includes some of the author's results The concept of orthogonality weaves the material into a coherent whole This textbook will be a useful resource for upper undergraduate students who intend to continue with mathematics graduate students interested in analysis and researchers interested in some basic aspects of CR Geometry The inclusion of several hundred exercises makes this book suitable for a capstone undergraduate Honors class Introduction to Cybersemiotics: A Transdisciplinary Perspective Carlos Vidales, Søren Brier, 2021-04-14 This book traces the origins and evolution of cybersemiotics beginning with the integration of semiotics into the theoretical framework of cybernetics and information theory The book opens with chapters that situate the roots of cybersemiotics in Peircean semiotics describe the advent of the Information Age and cybernetics and lay out the proposition that notions of system communication self-reference information meaning form autopoiesis and self-control are of equal topical interest to semiotics and systems theory Subsequent chapters introduce a cybersemiotic viewpoint on the capacity of arts and other practices for knowing This suggests pathways for developing Practice as Research and practice-led research and prompts the reader to view this new configuration in cybersemiotic terms Other contributors discuss cultural and perceptual shifts that lead to interaction with hybrid environments such as Alexa The relationship of storytelling and cybersemiotics is covered at chapter length and another

chapter describes an individual collectivity dialectics in which the latter Comind constrains the former interactants but the former fuels the latter The concluding chapter begins with the observation that digital technologies have infiltrated every corner of the metropolis homes workplaces and places of leisure to the extent that cities and bodies have transformed into interconnected interfaces The book challenges the reader to participate in a broader discussion of the potential limitations alternatives and criticisms of cybersemiotics
