10 Year-wise AILET Previous Year Solved Papers (2024 - 2015) 5th Edition | All India Law Entrance Test PYQs | Must for SLAT, LLB, Law Exams Disha Experts Disha Experts, The updated and revised 5th edition of the book 10 Year wise AILET Previous Year Solved Papers contains Past 10 Year wise Solved Papers 2024 2015 of the AILET Entrance Test The papers are provided Year wise which can also be attempted as Mock Tests The detailed solution to each paper is provided immediately after the Paper Each paper covers the 5 sections General Knowledge Mathematics Legal Aptitude Reasoning English **The Oxford Handbook of the Ethiopian Economy** Fantu Cheru, Christopher Cramer, Arkebe Oqubay, 2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia **Higher Education in Ethiopia** Tebeje Molla, 2018-01-18 This book focuses on higher education in Ethiopia analysing persisting inequalities and policy responses against the backdrop of the extensive expansion and reform that the system has experienced in recent years Drawing on empirical data generated through interviews policy reviews and focus group discussions it explicates factors of structural inequality ranging from neoliberal policy orientations to repressive gender culture and geo political peripherality In a departure from conventional studies that consider policy a response to social problems the book takes a critical perspective to show the constitutive role of policy and explains how the representation of the problem of social inequality undermines equity policy outcomes in Ethiopian higher education Not only does the book problematise the framing of the problem of inequality in the system it also outlines strategies for designing transformative equity instruments In explaining structural factors of inequality and equity provisions the book productively combines sociological concepts with historical accounts and political economy insights Given the increased economic optimism associated with higher education in sub Saharan Africa and the neoliberal ideals underpinning much of the restructuring of the system in the region this is a timely and important contribution that sheds light on the social justice implications and

consequences of such changes It offers fresh accounts of largely neglected qualitative cases of inequality making it a valuable read for students and researchers in the areas of Ethiopian education policy studies international and comparative education and international development *International Education* Daniel Ness, Chia-Ling Lin, 2015-03-17 This encyclopedia is the most current and exhaustive reference available on international education It provides thorough up to date coverage of key topics concepts and issues as well as in depth studies of approximately 180 national educational systems throughout the world Articles examine education broadly and at all levels from primary grades through higher education formal to informal education country studies to global organizations TDR results 2019 report , 2021-10-05 The report shows progress made on various indicators related to three overarching categories technical expected results application of organizational core values and managerial performance Ultimately TDR s outputs and outcomes contribute to health impact measured through the achievement of Sustainable Development Goals SDGs and the World Health Organization s WHO Thirteenth General Programme of Work GPW13 triple billion targets Given the adoption of the Sustainable Development Goals by the global community in 2016 TDR developed its 2018 2023 strategy to showcase the Programme s unique contribution through research capacity strengthening and global engagement to improved health quality education enhanced partnerships and other relevant SDG targets guiding international development work over the next 15 years The Performance Framework including a revised set of indicators which is aligned with TDR s 2018 2023 strategy the GPW13 strategic objectives and SDG targets has been in place since 2018

**Humanitarianism and the Quantification of Human Needs** Joël Glasman, 2019-12-06 This book provides a historical inquiry into the quantification of needs in humanitarian assistance Needs are increasingly seen as the lowest common denominator of humanity Standard definitions of basic needs however set a minimalist version of humanity both in the sense that they are narrow in what they compare and that they set a low bar for satisfaction The book argues that we cannot understand humanitarian governance if we do not understand how humanitarian agencies made human suffering commensurable across borders in the first place The book identifies four basic elements of needs As a concept as a system of classification and triage as a material apparatus and as a set of standards Drawing on a range of archival sources including the United Nations Refugee Agency UNHCR M decins sans Fronti res MSF and the Sphere Project the book traces the concept of needs from its emergence in the 1960s right through to the present day and United Nations Secretary General Ban Ki moon s call for evidence based humanitarianism Finally the book assesses how the international governmentality of needs has played out in a recent humanitarian crisis drawing on field research on Central African refugees in the Cameroonian borderland in 2014 2016 This important historical inquiry into the universal nature of human suffering will be an important read for humanitarian researchers and practitioners as well as readers with an interest in international history and development The Introduction Conclusion and Chapers 1 4 5 and 6 of this book are freely available as downloadable Open Access PDFs at <http://www>

*The Only Language They Understand* Nathan Thrall, 2017-05-16 In a myth busting analysis of the world's most intractable conflict a star of Middle East reporting one of the most important writers in the field The New York Times argues that only one weapon has yielded progress force Scattered over the territory between the Jordan River and the Mediterranean Sea lie the remnants of failed peace proposals international summits secret negotiations UN resolutions and state building efforts The conventional story is that these well meaning attempts at peacemaking were repeatedly perhaps terminally thwarted by violence Through a rich interweaving of reportage historical narrative and powerful analysis Nathan Thrall presents a startling counter history He shows that force including but not limited to violence has impelled each side to make its largest concessions from Palestinian acceptance of a two state solution to Israeli territorial withdrawals This simple fact has been neglected by the world powers which have expended countless resources on initiatives meant to diminish friction between the parties By quashing any hint of confrontation promising an imminent negotiated solution facilitating security cooperation developing the institutions of a still unborn Palestinian state and providing bounteous economic and military assistance the

United States and Europe have merely entrenched the conflict by lessening the incentives to end it Thrall's important book upends the beliefs steering these failed policies revealing how the aversion of pain not the promise of peace has driven compromise for Israelis and Palestinians alike Published as Israel's occupation of East Jerusalem the West Bank and Gaza reaches its fiftieth anniversary which is also the centenary of the Balfour Declaration that first promised a Jewish national home in Palestine *The Only Language They Understand* advances a bold thesis that shatters ingrained positions of both left and right and provides a new and eye opening understanding of this most vexed of lands
