Abstracts of Physical Papers from Foreign Sources Physical Society of London,1897 *The Dunhuang Region during Tibetan Rule (787-848)* Gertraud Taenzer,2013-01-01 The finds of the Mogao Caves enable us to study contemporary sources concerning the Dunhuang Region in north western China during Tibetan Rule 787 848 BC In some areas of research the information found in Chinese and Tibetan manuscripts comes from different sources which complement each other In tax related manuscripts for example the Chinese manuscripts reflect the bookkeeping of the lower ranking officials while the Tibetan manuscripts deal with the communication between the Tibetan administrators of the area and the Chinese local officials The volume by Gertraud Taenzer comprises Chinese and Tibetan manuscripts as well as fragments of manuscripts alike to shed light on the circumstances in Dunhuang under Tibetan rule The main focus is on the economic situation of the region the volume is divided into three parts The Organisation of the Tibetan Empire Population and Related Manuscripts and Economy To be able to understand the manuscripts better and finally to evaluate the economic situation of the area in the Tibetan period the administrative system of the area is clarified and the ethnographic composition of the people resident in the region is looked into Moreover especially as far as the chapter on economy is concerned many manuscripts which have not been studied before are included These are combined with the manuscripts already discussed to clarify our understanding of the life of the inhabitants of Dunhuang during this period of time , *Mongolia Survey* ,1995 *Labor Law and Practice in the Kingdom of Laos* Morris Pollak,1965 **Wider Bagan: Ancient and Living Buddhist Traditions** Elizabeth Moore,2023-02-28 Wider Bagan Ancient and Living Buddhist Traditions is the first book to define the area outside the renowned Buddhist capital where vestiges of Bagan era cultural traditions can be found From nearly six hundred attributes inventoried in Wider Bagan thematic and geographical analysis of the Wider Bagan data reveals a related but different trajectory from that of the capital The Sasan of the court was honoured and though its economy profited many places across Wider Bagan local resilience was foremost While the capital and Wider Bagan existed in relation to each other their aims and narratives differed Much has been written about Bagan but little attention on the ground has been devoted to areas beyond the capital These places have stories to tell ones of the past and of the present that are narrated in this book Wider Bagan is the most important recent publication on Myanmar s past Tracing Bagan s ideational and material legacies it recovers how this kingdom s successors related to their heritages Meticulously researched beautifully illustrated studded with clear maps tables and outlines Wider Bagan reveals these legacies custodians inhabiting territories stretching as far as Yunnan and Bengal Multiple topics are examined also in light of local scholarship often ignored due to linguistic limitations The resulting evocations of times and places make Wider Bagan an enduring guide to people s lives also in the larger scheme of things like the community tracing its founding to the Buddha Gotama s grandfather No one interested in Myanmar s complex past and fractious present can ignore the author s conclusions Lilian Handlin Member of the Harvard Faculty of Arts

and Sciences CAMLab In her detailed survey of hundreds of sites in the Ayeyarwady River basin Moore and her collaborators have revealed a long suspected but hitherto undocumented rural cultural landscape with origins well before and persisting long after the political heyday of metropolitan Bagan in the eleventh through thirteenth centuries During their investigations the authors had numerous encounters with local scholar archaeologists who identified frequently overlooked physical attributes that define the local cultural landscape In mapping these attributes the authors reconstructed a narrative of local resilience that speaks to a long local history of diversity and adaptability over an extensive region where other scholars working mainly from historical chronicles had observed only a rigid hegemony emanating from the political centre at Bagan Moore s innovative methodology breaks new ground for the study of early urban formations not only in Myanmar but throughout mainland Southeast Asia This research contributes to a building body of evidence that suggests a fresh paradigm to replace the long standing concentric circle model most often used to explain state formation throughout the region In this new paradigm the contradiction between urban and rural settlements is dismantled as the stories of the smaller villages and towns re enact the iterative process between places communities of users and social memory of Wider Bagan demonstrating in the process an ecology of resilient settlement that has endured through generations of political social and economic upheaval Richard A Engelhardt UNESCO Chair Professor of Cultural Heritage Management and Regional Advisor for Culture in Asia and the Pacific
