Drama, Disability and Education Andy Kempe, 2013 What can society learn about disability through the way it is portrayed in TV films and plays This insightful and accessible text explores and analyses the way disability is portrayed in drama and how that portrayal may be interpreted by young audiences Investigating how disabilities have been represented on stage in the past this book discusses what may be inferred from plays which feature disabled characters through a variety of critical approaches In addition to the theoretical analysis of disability in dramatic literature the book includes two previously unpublished playscripts both of which have been performed by secondary school aged students and which focus on issues of disability and its effects on others The contextual notes and discussion which accompany these plays and projects provide insights into how drama can contribute to disability education and how it can give a voice to students who have special educational needs themselves Other features of this wide ranging text include an annotated chronology that traces the history of plays that have featured disabled characters an analysis of how disability is used as a dramatic metaphor consideration of the ethics of dramatising a disabled character critical accounts of units of work in mainstream school seeking to raise disability awareness through engagement with practical drama and dramatic texts a description and evaluation of a drama project in a special school In tackling questions and issues that have not hitherto been well covered Drama Disability and Education will be of enormous interest to drama students teachers researchers and pedagogues who work with disabled people or are concerned with raising awareness and understanding of disability

DIGGING DEEP, AIMING HIGH : An Educator's Lifelong Quest to Put Kids First

Steven Askinazi, 2021-01-15 Digging Deep Aiming High is a memoir of my career as a teacher and administrator in the New York City public schools My experiences teaching in the middle school and my tenure working as an assistant principal and principal at the Manhattan Center High School for Science and Mathematics paint a contrasting picture Both schools were dramatically different in terms of providing job satisfaction and student achievement It is remarkable how two different schools could produce incredibly different results when teams of dedicated educators truly put kids first Manhattan Center attracted trailblazers who made it their mission to defy the odds to raise the bar to reject mediocrity and encourage all children to succeed As a team we decided early on to evaluate all of our programs and academic results by digging deep and aiming high to work toward the highest level of educational achievement for our kids Failure was never an option yet we realized that the bureaucratic challenges of working in a large school system and in an impoverished inner city neighborhood

would pose numerous roadblocks in accomplishing our goals The school was created in 1982 as a collaboration between the high school division and District 4 located in East Harlem This project was an educational experiment it being the first high school to accept students from anywhere in the city as long as they were willing to make a commitment to the rigors of a college bound program and a longer school day The campus was unique in that the school also housed an elementary school and junior high program in the same building Working in this environment was especially gratifying for staff to be surrounded by kids of all ages and by students who were accepted regardless of their zip code The parents and their children were especially grateful for the opportunity to attend a school of their choice rather than be forced to accept their neighborhood school which in many cases had a poor academic rating What makes this story so noteworthy is that we the stakeholders in this one special school recognized that we would need to seek out numerous public and private partnerships to assist us in the task of educating our youngsters With the abundance of resources and the generosity of time provided by organizations such as General Electric NBC Mt Sinai Hospital local universities NYU COLUMBIA HUNTER COLLEGE and the Children s Aid Society a community based organization to name a few we were able to create miracles for kids With the help of hundreds of mentors and many volunteers together with teachers and auxiliary personnel working 10 12 hour days and often on weekends we created a top notch academic program Our entire school population was accepted into colleges with prestigious scholarships and financial aid packages thanks to the dedication of a very talented teaching staff Building the school from scratch in 1982 was far from easy The growing pains of attracting competent staff willing to work collaboratively and dedicated leaders who were willing to work tirelessly to provide an environment for teachers to flourish were always a challenge The explosive issues of funding for public education desegregation privatization of schools the role of law enforcement and the involvement of the unions were very real then and continue to be current problems facing educators today Digging Deep Aiming High will provide the reader with a thorough examination of the ways in which our team dealt with these controversies as well as with the politicization of diversity equity and inclusion issues It is my hope that our best practices in this one very unique high school will serve as a road map to the resolution of many of the obstacles facing our public schools nationwide today and tomorrow
