Science Centre Education Hannu Salmi, 1993 This study investigates student learning in science center exhibitions as a form of informal education and examines intrinsic instrumental and situational student motivation Subjects N 130 consisted of 6 comprehensive school classes of 7th graders in the greater Helsinki area The design of the study was quasi experimental with two pre treatment groups intrinsic vs instrumental motivation and a situational motivation group as the control Classes were tested by an intrinsic instrumental motivation test and by a specific situation motivation test measuring the exhibition experience A knowledge test measured

the effects of a pre lesson and the learning of isolated facts and entities Results indicated 1 the intrinsic treatment group did best in nearly all cognitive tests 2 the situation motivation group performed better than expected 3 instrumental motivation does not apply to informal learning 4 the theory of intrinsic instrumental and situation motivation at least in informal education is confirmed 5 the science center exhibition proved to be a motivating setting for learning and 6 it would be instructive to apply these findings to formal education Appendixes provide Finnish and English versions of the testing instruments Contains approximately 360 references LL ENC Focus ,2001 **Focus on Scientists** Mary Ellen Sterling,1994-03 Related activities and lot of extras help students integrate human interest stories into their studies
