An Unspeakable Secret:

An Unspeakable Secret Glenda Hunter, 2014-12-03 Hidden secrets usually don't hide forever as I found out in my own life I woke to the reality that I was hiding abuse in my background Abuse for me started at an early age It was so traumatic that I developed multiple personality disorder MPD or today DID just to be able to cope The great struggle began The greatest feeling that overwhelmed me was one of hopelessness But with the help of God and the encouragement of my loving husband good therapists and caring friends I began my journey to wholeness Can wholeness be found Yes it can *Family Secrets and the Psychoanalysis of Narrative* Esther Rashkin, 2014-07-14 *Family Secrets and the Psychoanalysis of Narrative* is the first book to explore the implications of the psychoanalytic theory of the phantom for the study of narrative literature A phantom is formed when a shameful unspeakable secret is unwittingly transmitted through cryptic language and behavior transgenerationally from one family member to another The haunted individual to whom the encrypted secret is communicated becomes the unwitting medium for someone else's voice and the result is speech and conduct that appear incongruous or obsessive in a variety of ways Through close readings of texts by Conrad Villiers de l'Isle Adam Balzac James and Poe Esther Rashkin reveals how shameful secrets concealed within the unspoken family histories of fictive characters can be reconstructed from their linguistic traces and can be shown not only to drive the characters' speech and behavior but also to generate their narratives First articulated by the French psychoanalysts Nicolas Abraham and Maria Torok the theory of the phantom here represents a radical departure from Freudian Lacanian and other psychoanalytic approaches to literary interpretation In Rashkin's hands it also provides a response to structuralist and poststructuralist critiques of character analysis an alternative to deconstructive strategies of reading and a new vantage point from which to consider problems of intertextuality authorship and the formation and origins of narrative Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Secrets in Psychotherapy* Kathryn Zerbe, 2025-04-01 This book brings together contemporary perspectives from psychodynamic treatment advances in cognitive science medicine and neuroscience in a user friendly format guiding practitioners from beginner to more advanced practitioner in working with secrets that emerge during psychotherapy Despite their ubiquity in life and in clinical practice secrets and secret keeping receive limited attention in the training and skill set required for mental health clinicians Drawing on personal experience and clinical expertise as well as film memoir and literature Dr Kathryn Zerbe shares how secrets come to light in both life and treatment demonstrating the powerful hold that secrets can have on our lives This book offers a fresh take on how we view our secrets and how we can

use them as a tool to sustain our most intimate and valued connections over the course of a lifetime Using cutting edge research as well as honed clinical expertise the author suggests how one might go about managing the secrets of everyday living that we must keep as well as how we can identify which we can let go Particular attention is paid to the mind body relationship and somatic countertransference reactions Each chapter suggests guidelines to promote wellness and resilience in the secret keeper whether that be the psychotherapist or their patient Written with compassion and in a user friendly style Secrets in Psychotherapy will benefit anyone who is navigating the thorny terrain of keeping a secret for themselves or someone they know It is an essential read for psychotherapists psychoanalysts and practicing mental health professionals of all disciplines

Nietzsche's Epic of the Soul T. K. Seung, 2005-06-14 Thus Spoke Zarathustra is Nietzsche's most problematic text There appears to be no thematic connection between its four Parts and numerous sections To make it even worse the book contains a number of thematic contradictions The standard approach has been a method of selective reading that is most critics select a few brilliant passages for edification and ignore the rest This approach has turned Nietzsche's text into a collection of disjointed fragments Going against this prevalent approach T K Seung presents the first unified reading of the whole book He reads it as the record of Zarathustra's epic journey to find spiritual values in the secular world The alleged thematic contradictions of the text are shown to indicate the turns and twists that are dictated by the hero's epic battle against his formidable opponent His heroic struggle is eventually resolved by the power of a pantheistic nature religion Thus Nietzsche's ostensibly atheistic work turns out to be a highly religious text The author uncovers this epic plot by reading Nietzsche's text as a baffling series of riddles and puzzles Hence his reading is not only edifying but also breathtaking In this unprecedented enterprise the author takes a complex interdisciplinary approach engaging the five disciplines of philosophy psychology religious studies literary analysis and cultural history

Dismemberment in the Fiction of Toni Morrison Jaleel Akhtar, 2014-06-19 Dismemberment in the Fiction of Toni Morrison is a multifaceted study of Toni Morrison's fiction It investigates racism and the concomitant experiences of dismemberment in Morrison's fiction from multiple perspectives including history psychology and culture Looking at dismemberment from multiple perspectives rather than the more generic and abstract expression of fragmentation likens the impact of racism on individuals to the splitting of bodies amputation phantom limbs and traumatic memories and in more concrete and visceral terms Morrison's art of story telling involves an interactive conversation from multiple perspectives demanding more attentive participation from her readers in deconstructing the meaning of her narratives Studying her fiction from multiple perspectives suggests various ways of examining the pernicious impact of racism which produces various forms of dismemberment in her characters This investigation does this without giving prominence to one perspective at the expense of other equally relevant modes of interpretation Morrison's depiction of the trauma of racism on the psyche of her characters and the concomitant experiences

of dismemberment has its roots in the historical and social realities of African Americans The psychological impact of racism on Morrison s characters requires viewing through the lens of the historical and social realities that play a significant role Morrison enacts racial alienation and dismemberment as complex processes it is consequently important to look at her project from multiple perspectives Examining the lived reality of African Americans from only one perspective ignores dismemberment in the light of the socio political and historical realities of African American experience in the United States and entails reconsideration of the physical historical social and psychological realities This investigation argues for the importance of combining these historical and psychological as well as sociocultural analyses of Morrison s fiction in order to acquire a more rounded understanding of racism and its debilitating effects on the psyche By situating Morrison s fiction within a variety of discourses this study offers a multifaceted highly interdisciplinary framework for a more rewarding analysis of her fiction

Experiencing Gender Rocío Carrasco-Carrasco,2015-10-13 This book provides comprehensive insights into the concept of gender in an international context By focusing on diverse and varied critical approaches it explores how gender identities are shaped by socio cultural factors and provides a map of how gender experiences are understood and represented in the arts and society Through an analysis of both focal and local experiences of gender within a global context the contributions to this volume create a continuum in which gender and experience stand at a crossroads within the arts Moreover this crossroads intersects with the cultural determinations that some of the contributors explore in a critical way Consequently this volume represents a necessary contribution to the new maps of gender that are currently being set for the future The book will appeal to academic scholars interested in the articulation of gender in traditional discourses as well as the many deconstructions that have been undertaking in the recent past and the present In addition the volume is suitable for use in programmes and modules for undergraduate students of feminist and gender studies cultural studies sociology literature and popular culture among other disciplines
