The chapters show the scapes and writings which influenced him and the way he transformed them, packaged them and passed them on for future use. The city is shown to be an imagined or virtual world but with a serious aim for a serious game. Dickens sets up a workshop for the simulation of real societies and cities. This urban building with is transferable to other literatures and medial forms. The book offers vital understanding of how writing and image work in particular ways to recreate and re-enchant society and the built environment. It will be of interest to scholars of literature, media, film, urban studies, politics and economics.
