Resources in Education ,1995 *Resources in Education* ,1995 *Forthcoming Books* Rose Arny,2003 **Language in Epistemic Access** Caroline Kerfoot,Anne-Marie Simon-Vandenberg,2018-07-26 This book focuses on how to address persistent linguistically structured inequalities in education primarily in relation to South African schools but also in conversation with Australian work and with resonances for other multilingual contexts around the world The book as a whole lays bare the tension between the commitment to multilingualism enshrined in the South African Constitution and language in education policy and the realities of the dominance of English and the virtual absence of indigenous African languages in current educational practices It suggests that dynamic plurilingual pedagogies can be allied with the explicit scaffolding of genre based pedagogies to help redress asymmetries in epistemic access and to re imagine policies pedagogies and practices more in tune with the realities of multilingual classrooms The contributions to this book offer complementary insights on routes to improving access to school knowledge especially for learners whose home language or language variety is different to that of teaching and learning at school All subscribe to similar ideologies which include the view that multilingualism should be seen as a resource rather than a problem in education Commentaries on these chapters highlight evidence based high impact educational responses and suggest that translanguaging and genre may well offer opportunities for students to expand their linguistic repertoires and to bridge epistemological differences between community and school This book was originally published as a special issue of *Language and Education* *A Dictionary of South African English on Historical Principles* Rhodes University. Dictionary Unit for South African English,1996 A Dictionary of South African English is the fullest ever study of the English language in South Africa The result of 25 years of work this dictionary has been researched and written according to historical principles However as well as recording examples of South African English going back to the sixteenth century the dictionary also provides an insight into the dramatic political and cultural changes in South Africa s history by examining the country s ever changing language right up to the present day Research into language has involved the contributions of hundreds of individual South Africans as well as extensive research into all other forms of the written and spoken language Diverse and informative entries include robot a traffic light bakkie a small truck bond a mortgage and brinjals aubergines The dictionary includes such areas as children s slang the vocabulary of soldiers the mines local music terms the townships food and a detailed look at the complex language of apartheid English words originating from all the country s groups are recorded including words from Dutch Afrikaans the Malayo Indonesian languages the Indian Khoisan Nguni and Sotho languages **South African National Bibliography** ,1992 Includes publications received in terms of Copyright Act no 9 of 1916 **Arts & Humanities Citation Index** ,1992 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals *Drum* ,2007 **Books in**
