what was their most intimate home for seventy eighty ninety years We begin that study as strangers strangers to the human body and strangers to each other and we invariably finish as good friends to both I m happy you haven t missed this rare opportunity And someday when you re really old twenty thirty forty years after you graduate when you ve achieved your goals and you are a practicing healthcare professional you will have occasion to get a whiff of formaldehyde and that will cause you to remember You ll remember the Anatomy Lab the names of your lab partners and instructors and your donor body And you ll reflect on what is called the music of the Anatomy Laboratory the sound of learning the sound of discovery the sound of students teaching other students all throughout the room And you will recall that lovely aroma in the lab And here s the thing when you remember you will smile I promise you will
