

## Virtual Lab: Population Biology

### Week 14 Lab Worksheet

How to get there: ([http://glencoe.mcgraw-hill.com/sites/dl/free/0078757134/383928/BL\\_04.html](http://glencoe.mcgraw-hill.com/sites/dl/free/0078757134/383928/BL_04.html) ) click on the link to [Virtual Lab - Population Biology](#).

Instructions: This lab has instructions on the left hand side. Enter your data in the tables below and then when done answer the questions..

| Data Table |                                         |                                          |                                                    |                                                     |
|------------|-----------------------------------------|------------------------------------------|----------------------------------------------------|-----------------------------------------------------|
|            | <i>P. aurelia</i> grown alone, cells/mL | <i>P. caudatum</i> grown alone, cells/mL | <i>P. aurelia</i> grown in mixed culture, cells/mL | <i>P. caudatum</i> grown in mixed culture, cells/mL |
| Day 0      | 2                                       | 2                                        | 2                                                  | 2                                                   |
| Day 2      | 10                                      | 10                                       | 12                                                 | 8                                                   |
| Day 4      | 30                                      | 54                                       | 20                                                 | 32                                                  |
| Day 6      | 52                                      | 88                                       | 18                                                 | 64                                                  |
| Day 8      | 58                                      | 96                                       | 12                                                 | 78                                                  |
| Day 10     | 60                                      | 96                                       | 10                                                 | 92                                                  |
| Day 12     | 58                                      | 96                                       | 6                                                  | 96                                                  |
| Day 14     | 58                                      | 100                                      | 0                                                  | 96                                                  |
| Day 16     | 60                                      | 98                                       | 0                                                  | 96                                                  |

| Journal                                                                                                                                                                                                                                                          |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. What are the objectives for this experiment? (you can summarize)                                                                                                                                                                                              |
| 2. Make a hypothesis about how you think the two species of <i>Paramecium</i> will grow alone and how they will grow when they are grown together.<br>I think they both will grow more rapidly than together. Together they will overload the carrying capacity. |
| 3. Explain how you tested your hypothesis.<br>I ran three samples, each separate and then together, and test the growth rate every two days.                                                                                                                     |
| 4. On what day did the <i>Paramecium caudatum</i> population reach the carrying capacity of the environment when it was grown alone? How do you know?                                                                                                            |
