Increasingly patients do not have a single long term condition but live with two or more conditions complicating treatment and adding to its cost The Committee strongly supports the development of individual care planning for people with long term conditions based on the principles successfully demonstrated in the NHS House of Care programme Care planning approaches will involve GPs community health services and specialists sitting down with the patient to draw up a personalised plan for the care required which includes the support needed to help the patient manage his or her own condition The challenge though of introducing personalised care planning for 15 million people is substantial The Committee looked at the prevailing view that services to treat long term conditions should be moved out of hospitals and into primary and community care To provide effective care for these conditions services have to be maintained across all settings from support in the home through to acute specialist care and many conditions will continue to require specialist services delivered in hospital Effective management of long term conditions also requires collaboration with other government providers such as housing and transport services

Architectural Research Addressing Societal Challenges Manuel Jorge Rodrigues Couceiro da Costa, Filipa Roseta, Joana Pestana Lages, Susana Couceiro da Costa, 2019-08-08 The escalating interdependency of

nations drives global geopolitics to shift ever more quickly Societies seem unable to control any change that affects their cities whether positively or negatively Challenges are global but solutions need to be implemented locally How can architectural research contribute to the future of our changing society How has it contributed in the past The theme of the 10th EAAE ARCC International Conference Architectural Research Addressing Societal Challenges was set to address these questions This book Architectural Research Addressing Societal Challenges includes reviewed papers presented in June 2016 at the 10th EAAE ARCC International Conference which was held at the facilities of the Faculty of Architecture of the University of Lisbon The papers have been further divided into the following five sub themes a Changing Society In Transit Global Migration Renaturalization of the City Emerging Fields of Architectural Practice and Research on Architectural Education The EAAE ARCC International Conference held under the aegis of the EAAE and of the ARCC is a conference organized every other year in collaboration with one of the member schools universities of those associations alternatively in North America or in Europe

Acoustics in the Built Environment: a Challenge for Improving the Quality of Life Arianna Astolfi, Giuseppina Emma Puglisi, Nicola Prodi, Jian Kang, Louena Shtrepi, Chiara Visentin, 2022-05-30 Low-Income Consumers as a Source of Innovation Aline Krämer, 2015-02-28 The dissertation shows why innovations are vital to succeed in the low income market segment i e the four billion people living on less than 8 USD per day In particular it explores the role low income consumers can play in corporate innovation processes The study tests and expands theoretical findings on user innovations and lead users in the Brazilian low income context The findings also aim to enhance the capacity of companies to develop new solutions for the so far untapped low income market by leveraging the knowledge of their target group

Singapore's Health Care System K. E. T. Al SATKU, 2015-11-13 How did Singapore's health care system transform itself into one of the best in the world It not only provides easy access but its standards of health care not only in curative medicine but also in prevention are exemplary Fifty years ago the infant mortality rate IMR was 26 per thousand live births today the IMR is 2 Life expectancy was 64 years then today it is 83 The Singapore Medicine brand is trusted internationally and patients are drawn to Singapore from all over the world And while many countries struggle to finance their health care Singapore has developed a health care financing framework that makes health care affordable for its people and gives sustainability to the health care system Reliability is provided by a professional workforce that seeks to continually learn improve and become ever more proficient with cutting edge technology while emphasizing the relational aspects of health care by nurturing compassion and maintaining high standards of integrity Convenience and safety are enhanced by a unifying IT system that enables the portability of medical records across health care institutions All these have been achieved not by chance but by careful planning strong leadership and dedicated people who are prepared to learn from Singapore's own experience while adapting best practices from around the world But the system is not without challenges not least those of an aging population and an increasing market influence This book provides a fascinating insight into the development of

Singapore's health care system from the early days of fighting infections and providing nutrition supplementation for school children to today's management of lifestyle diseases and high end tertiary care. It also discusses how the system must adapt to help Singaporeans continue to live well, live long and with peace of mind.

Sustainability in Coffee Production

Andrea Biswas-Tortajada, Asit K. Biswas, 2015-06-12 Coffee as a commodity and through its global value chains is the focus of much interest to achieve fair trade and equitable outcomes for producers, processors and consumers. It has iconic cultural and economic significance for Colombia which is one of the world's major coffee producers for the global market. This book examines sustainable coffee production in Colombia specifically the initiatives of Nestl  to create shared value. It describes the transformation of the coffee landscape by the development of economically, socially and environmentally viable and dedicated supply chains. Suppliers have been encouraged to shift production and quality paradigms in order to develop long term and sustainable strategies for higher value and premium quality products. This has been partially achieved by establishing a robust partnership with the Coffee Growers Federation and other public, private and social actors thereby taking control of the institutional architecture and knowledge base that exists in the country. The book provides an important lesson of corporate social responsibility and the creation of shared value for the benefit of farmers, corporations and consumers.

Sustainable Energy Solutions in Agriculture Jochen

Bundschuh, Guangnan Chen, 2014-03-07 Sustainability in agriculture and associated primary industries which are both energy intensive is crucial for the development of any country. Increasing scarcity and resulting high fossil fuel prices combined with the need to significantly reduce greenhouse gas emissions make the improvement of energy efficient farming and increased use of renewable energy a high priority.

Making

Money Work Asian Development Bank, 2015-07-01 The new sustainable development agenda is expected to touch every country, person and activity. Therefore, shouldn't every dollar count toward achieving it? Asia and the Pacific home to more than half of humanity has the money to improve the lives of all its people and protect the planet in fair and durable ways. However, funds are in many hands, invested elsewhere or used for various purposes. It is time to move beyond this fragmentation and align finance behind sustainable development, recognizing that while capital will be key, so will the capacity to apply and attract it effectively. This report explores some of the ways forward. It highlights not just the need to inject more money into investments that contribute to sustainable development, but also the need to attract funds toward them to finance human needs, infrastructure and cross-border public goods. The report spans public and private options in their distinct roles and in combination. An eight-point agenda suggests how key constituents can do their parts. Working together, they can make money work for development where benefits are not only more equitably shared but will last for
