Study Guide for Organic Chemistry Seyhan N. Ege, 1999 *Electron Crystallography of Organic Molecules* J.R. Fryer, D. Dorset, 2012-12-06 Maximum Entropy ME techniques have found widespread applicability in the reconstruction of incomplete or noisy data These techniques have been applied in many areas of data analysis including imaging spectroscopy and scattering Gull and Skilling 1984 The techniques have proven particularly useful in astronomy Narayan and Nityanada 1984 In many of these applications the goal of the reconstruction is the detection of point objects against a noisy background In this work we investigate the applicability of ME techniques to data sets which have strong components which are periodic in space or time The specific interest in our laboratory is High Resolution Electron Micrographs of beam sensitive materials However ME techniques are of general interest for all types of data These data may or may not have a spatial or temporal character Figure 1 shows an HREM image of the rigid rod polymer poly paraphenylene benzobisoxazole PBZO The 0.55 nm spacings in the image correspond to the lateral close packing between the extended polymer molecules Near the center of this crystallite there is evidence for an edge dislocation In HREM images both the frequency and position of the information is important for a proper interpretation Therefore it is necessary to consider how image processing affects the fidelity of this information in both real and Fourier space

Brain Development and School Pat Guy, 2018-09-13 Brain Development and School offers a range of practical classroom strategies to help pupils develop their executive function Packed with useful tips that are grounded in theory it examines how to support aspects of children's executive functioning that can affect their school life including self control memory metacognition organisation motivation self regulation and focus Relevant for pupils in the primary and secondary school the book focuses on ways of improving children's emotional and intellectual development It includes Discussion of what executive functioning is and the different factors that might affect a child's executive functioning Ways that executive functioning weaknesses show themselves in school Support strategies for teachers and advice for pupils to improve specific areas of executive functioning Manageable solutions and modifications that can be applied within the mainstream classroom A self assessment questionnaire that can be used as a starting point for discussion with pupils This book will be beneficial to all teachers school leaders and SENCOs looking to support their pupils by identifying and understanding the root causes of their behaviour It recognises the important role that schools play in pupils neurological development and suggests ways for schools to provide more personalised differentiated support for individual pupils
