Unity and Fragmentation in Psychology Nicolò

Gaj,2016-03-02 Psychology has always defined itself as a science and yet it has lacked the theoretical and methodological unity regarded as characteristic of the natural sciences Nicol Gaj explores the topical question of unification in psychology setting out a conceptual framework for considerations of unity and disunity and exploring the evidence of its fragmentation He takes a critical look at the history of the most prominent attempts at unification and at the desirability and feasibility of the whole project The book represents a unique and valuable attempt to address the issue of unification from a philosophical perspective and via a combination of theoretical and empirical research **Library of Congress Subject Headings**
