Campbell,Tarun Ramadorai,2025-10-21 Two leading economists reveal why today's personal finance markets are rigged against us and offer practical steps to fix them We interact with the financial system every day whether taking out or paying off loans making insurance claims or simply depositing money into our bank accounts Fixed exposes how this system has been corrupted to serve the interests of financial services providers and their cleverest customers at the expense of ordinary people John Campbell and Tarun Ramadorai diagnose the ills of today's personal finance markets in the United States and across the globe looking at everything from short term saving and borrowing to loans for education and housing financial products for

retirement and insurance They show how the system is fixed to benefit those who are wealthy and more educated while encouraging financial mistakes by those who are not making it difficult for regular consumers to make sound financial decisions and disadvantaging them in some of the most consequential economic transactions of their lives Campbell and Ramadorai describe how some even opt out of the financial system altogether relying on unregulated and often shady mechanisms to implement necessary financial functions with dire consequences for individuals families and the economy more broadly With the explosive growth of the global middle class longer lifespans and greater numbers of seniors managing their money alone the pitfalls of personal finance now affect billions of people around the world Fixed proposes concrete solutions that harness the expertise of economists the power of government and the speed of technology to restore fairness and trust in our broken system and make it work better for ordinary people

Personal Finance and Investments Keith Redhead, 2008-09-15 In this book the author draws from finance psychology economics and other disciplines in business and the social sciences recognising that personal finance and investments are subjects of study in their own right rather than merely branches of another discipline Considerable attention is given to topics which are either ignored or given very little attention in other texts These include the psychology of investment decision making stock market bubbles and crashes property investment the use of derivatives in investment management regulation of investments business More traditional subject areas are also thoroughly covered including investment analysis portfolio management capital market theory market efficiency international investing bond markets institutional investments option pricing macroeconomics the interpretation of company accounts Packed with over one hundred exercises examples and exhibits and a helpful glossary of key terms this book helps readers grasp the relevant principles of money management It avoids non essential mathematics and provides a novel new approach to the study of personal finance and investments This book will be essential for students and researchers engaged with personal finance investments behavioural finance financial derivatives and financial economics This book also comes with a supporting website that includes two updated chapters a new article featuring a behavioural model of the dot com further exercises a full glossary and a regularly updated blog from the author
