Citizen Designs Eli Elinoff, 2021-03-31 What does it mean to design democratic cities and democratic citizens in a time of mass urbanization and volatile political transformation Citizen Designs City Making and Democracy in Northeastern Thailand addresses this question by exploring the ways that democratic urban planning projects intersect with emerging political aspirations among squatters living in the northeastern Thai city of Khon Kaen Based on ethnographic and historical research conducted since 2007 Citizen Designs describes how residents of Khon Kaen s railway squatter communities used Thailand s experiment in participatory urban planning as a means of reimagining their citizenship remaking their communities and acting upon their aspirations for political equality and the good life It also shows how the Thai state used participatory planning and design to manage both situated political claims and emerging politics Through ethnographic analysis of contentious collaborations between residents urban activists state planners participatory architects and city officials Eli Elinoff s analysis reveals how the Khon Kaen s railway settlements became sites of contestation over political inclusion and the meaning and value of democracy as a political form in the first decades of the twenty first century Elinoff examines how residents embraced politics as a means of enacting their equality This embrace inspired new debates about the meaning of good citizenship and how democracy might look and feel The disagreements over citizenship like those Elinoff describes in Khon Kaen reflect the kinds of aspirations for political equality that have been fundamental to Thailand s

political transformation over the last two decades which has seen new political actors asserting themselves at the ballot box and in the streets alongside the retrenchment of military authoritarianism Citizen Designs offers new conceptual and empirical insights into the lived effects of Thailand's political volatility and into the current moment of democratic ambivalence mass urbanization and authoritarian resurgence

Global Trends and Regional Development

Nikolai Genov, 2011-09-23 For millennia contact between societies was limited to trade or wars a situation that changed profoundly with the development of global markets serving industrialization The outcome was the emergence of one global human civilization and one common future that will depend on the capacity of individuals and societies to manage the potentials for social development This edited collection is dedicated to the discussion of four global trends upgrading the rationality of organizations individualization the spreading of instrumental activism and universalization of value normative systems The mutual influence of these interrelated trends brings about both constructive and destructive effects in social life social integration and change Contributors examine questions such as How do global trends pave their way in regions What are the similarities and differences of regional development How do agencies cope with the challenges of global trends in regional development

The Dynamism of Civil Procedure - Global Trends and Developments

Colin B. Picker, Guy Seidman, 2015-11-11 This book shows the surprising dynamism of the field of civil procedure through its examination of a cross section of recent developments within civil procedure from around the world It explores the field through specific approaches to its study within specific legal systems and within discrete sub fields of civil procedure The book reflects the latest research and conveys the dynamism and innovations of modern civil procedure by field method and system The book's introductory chapters lay the groundwork for researchers to appreciate the flux and change within the field The concluding chapters bring the many different identified innovations and developments together to show the field's ability to adapt to modern circumstances while retaining its coherence even across different legal systems traditions fields and analytic approaches Specifically in this book the presence of dynamism is explored in the legal systems of the EU France the US Brazil Australia the UK and China So too that dynamism is explored in the contributions analyses and discussions of the changes or need for change of specific aspects of civil procedure including litigation costs class actions derivative actions pleadings and res judicata Furthermore most of the individual contributions may be considered to be comparative analyses of their respective subjects and when considered as a whole the book presents the dynamism of civil procedure in comparative perspective Those discrete and aggregated comparative analyses permit us to better understand the dynamism in civil procedure for change in the abstract can be less visible and its significance and impact less evident While similar conclusions may have been drawn through examinations in isolation employing comparative analytic methods provided a richer analysis and any identified need for change is correspondingly advanced through comparative analysis Furthermore if that analysis leads to a conclusion that change is necessary then comparative law may provide pertinent examples for such change as well

as methodologies for successfully transplanting any such changes In other words as this book so well reflects comparative law may itself usefully contribute to dynamism in civil procedure This has long been a *raison d'être* of comparative law and as clear from this book's contributions in this particular time and field of study we find that it is very likely to achieve its lofty promise

Provincial Democracy Rama Sundari Mantena, 2023-08-24 Situated within the context of seismic global transformations of the early twentieth century namely the two World Wars and the crisis of the imperial order Provincial Democracy delves into the period between the decline of empire and the rise of the nation This period the book contends is defined by not only the dominance of the nation state and debates over a new global order but also the expansion of democratic participation in defining and negotiating political futures and an increased use of the language of liberalism political rights and self government in colonial India Moreover it shifts the focus from the dominant narrative of linguistic nationalism as defining regionalism on to debates over questions of representation rights political reforms and federalism Thus it uncovers a broad perspective on political imaginaries that anticipated democracy in independent India

International Education Aid in Developing Asia I-Hsuan Cheng, Sheng-Ju Chan, 2015-05-22 This book provides an Asian perspective on the timely urgent questions of how international education aid and development should move forward and what development roles Asia should play especially following the end of the UN Millennium Development Goals MDGs and Education for All EFA in 2015 To answer these questions four separate but interwoven parts which analyze and anchor education MDGs and EFA policies and practices by means of diverse case studies of donor states recipient states and states with a dual and transitional role in Asia are addressed On the basis of the analyses a clearer and concrete direction for effectively and sustainably extending international education aid and development beyond 2015 can be derived

Global East Asia Frank N. Pieke, Koichi Iwabuchi, 2021-08-03 Drawing on work in a range of disciplines including history anthropology demography development environmental studies political studies health sociology and the arts this work approaches East Asia from new perspectives The book looks at contemporary Japan and Korea and focuses on many facets of Chinese culture artistic production economic development digital issues education and international collaboration

Global Trends in Higher Education Quality Assurance Susanna Karakhanyan, Bjørn Stensaker, 2020-09-07 Globalization massification of tertiary education and ICT revolution have radically altered the tertiary education environment posing new challenges to governments higher education providers and other key stakeholders in terms of relevance and credibility of provisions With the radical alterations it became clear that the traditional means for internal and external evaluations are no longer adequate to ensure the acceptable level of tertiary education performance to meet the society development needs Considering one of the primary roles of quality assurance in tertiary education is ensuring relevance and credibility of tertiary education provisions to the ever changing needs of the macro world of industry politics and society at large more and more governments are currently prioritizing quality assurance to drive the required changes in governance of higher

education systems mutual recognition across national borders and accountability to the public in different parts of the world. As part of its mission the INQAAHE has undertaken a Global Study of both external and internal quality assurance developments worldwide in cooperation with the regional QA networks e.g. ENQA, CANQATE, APQN, ANQAHE, CEENQA in 2017-2018. The regions covered in this scoping study are as follows: Africa, the Arab Region, Asia Pacific, Eastern and Western Europe, Latin America and the Caribbean, and Northern America.

Global Trends in Higher Education Quality Assurance: Challenges and Opportunities in Internal and External Quality Assurance provides a comprehensive coverage of the trends and developments in higher education quality assurance as they refer to legitimacy, trust, efficiency and relevance. Global Trends in Human Resource Management Edward E. Lawler III, John W. Boudreau, 2015-06-24. Since 1995 USC's Center for Effective Organizations CEO has conducted the definitive longitudinal study of the human resource management function in organizations. By analyzing new data every three years since then the Center has been able to consistently chart changes in how HR is organized and managed while at the same time providing guidance on how professionals in the field can drive firm performance. Global Trends in Human Resource Management the seventh report from CEO provides the newest findings about what makes HR successful and how it can add value to organizations today. Edward E. Lawler III and John W. Boudreau conclude that HR is most powerful when it plays a strategic role, makes use of information technology, has tangible metrics and analytics and integrates talent and business strategies. To adapt to the demands of a changing global marketplace HR is increasingly required to span the boundaries between its function, the organization as a whole and the dynamic environment within which it operates. This report tracks changes in a global sample of firms that shows how HR differs across Europe, the U.S. and Asia, providing an international benchmark against which to measure a company's practice and shows how HR can adapt in a rapidly changing landscape.
