Energy Democracy Denise Fairchild, Al Weinrub, 2017-10-12 The near unanimous consensus among climate scientists is that the massive burning of gas oil and coal is having cataclysmic impacts on our atmosphere and climate These climate and environmental impacts are particularly magnified and debilitating for low income communities and communities of color Energy democracy tenders a response and joins the environmental and climate movement with broader movements for social and economic change in this country and around the world Energy Democracy brings together racial cultural and generational perspectives to show what an alternative democratized energy future can look like The book will inspire others to take up the struggle to build the energy democracy movement

Empirically Based Interventions Targeting Social Problems John S. Wodarski, Laura M. Hopson, 2019-11-12 This unique volume demonstrates the effectiveness of applying an evidence based practice process to the solution of selected social problems It focuses on social work interventions addressing family community and societal factors Research indicates that reinforcement for positive behavior at the group organizational and community levels as opposed to interventions focusing on the individual are more likely to result in meaningful improvement in well being Chapters address issues such as child maltreatment educationally disadvantaged children violence in schools adolescent sexuality substance abuse crime urban decline and homelessness unemployment

marital conflict and chronic medical problems Empirically Based Interventions Targeting Social Problems is a relevant resource for practitioners and counseling professionals whose work involves interventions with children and families as well as communities It also is a useful text for graduate students in social work as well as students preparing for other helping professions including psychology sociology marital and family counseling and child development **Strategic Alliances as Social Facts** Mark De Rond,2003-06-19 How can we explain a proliferation of alliances when the probability of failure is higher than success And why have we emphasized their order manageability and predictability whilst acknowledging that they tend to be experienced as messy politically charged and unpredictable Mark de Rond in this provocative book sets out to address such paradoxes Based on in depth case studies of three major biotechnology alliances he suggests that we need theories to explain idiosyncrasy as well as social order He argues that such theories must allow for social conduct to be active and self directed but simultaneously inert and constrained thus permitting voluntarism determinism and serendipity alike to explain causation in alliance life The book offers a highly original combination of insights from social theory and intellectual history with more mainstream strategic management and organizations literature It is a refreshing and thought provoking analysis that will appeal to practitioner and academic researcher alike **Religious Bodies: 1926: Separate denominations: statistics, history, doctrine, organization, and work** United States. Bureau of the Census,1929

Enjoying the Melody of Appearance: An Mental Symphony within **Alliance Facts Figures 24**
