Beate Ursula Josephi

Alquds Daily Newspaper:

The Information Age and Diplomacy Amir Dhia, 2006-11 Advances in the field of information and communication technologies have substantially affected most segments of our life leading to the Information Age or Information Revolution. On both individual and state scale, information has become a vital commodity by which one measures levels of knowledge, skills, well-being, prosperity and development. This academic work traces the evolution of the Information Age and the emerging trends of diplomacy and politics in today's world. It signals potential opportunities and threats while strategically forecasting current and future implications. Including three major chapters, the work is divided into eleven significant themes. It reviews the emergence of knowledge-based societies and highlights their main features. The course of globalization, the worldwide Internet development, the consequences of restricting the flow of information and the Revolution in Military Affairs are among the issues examined. Also thoroughly treated is the evolution of diplomacy with reference to information and intelligence gathering, analysis and policy making. The publication outlines the qualifications of diplomats and executives required at the present and coming stages of professionalism. In addition to examining contemporary traditional and non-traditional conflicts around the globe, it takes a look at U.S. hegemony policies in world affairs. Certain cultural and social issues directly linked to the Information Age are dealt with as well. They refer to the growing importance of culture and identity awareness in an era of increasing social interdependence and to the global evolution of languages and their use in everyday life and in current affairs. The book concludes with a set of observations in the aftermath of the September 11 attacks on the United States. The observations point to particular notions and developments that influence our way of living, politics and diplomacy. Furthermore, specific analysis is made of the U.S. invasion of Iraq in March 2003 and its consequences.

Journalism Education in Countries with Limited Media Freedom Beate Ursula Josephi, 2010

Journalism education surrounded by media tsunamis continues to expand as a crucial area of professional and academic life. It gets to the roots of media-society relations. This volume gives important food for thought to the problematic classification of countries to free, partly free and not free. Kaarle Nordenstreng, University of Tampere, Book Jacket.

Trans-Colonial Urban Space in Palestine Maha Samman, 2013-06-26 Taking a multidisciplinary approach to examine the dynamics of ethno-national contestation and colonialism in Israel/Palestine, this book investigates the approaches for dealing with the colonial and post-colonial urban space, resituating them within the various theoretical frameworks in colonial urban studies. The book uses Henry Lefebvre's three constituents of space: perceived, conceived and lived, to analyse past and present colonial cases interactively with time. It mixes the non-temporal conceptual framework of analysis of colonialism using literature of previous colonial cases with the inter-temporal abstract Lefebvrian concepts of space to produce an inter-temporal re-reading of them. Israeli colonialism in the occupied areas of 1967, its contractions from Sinai and Gaza and the implications on the West Bank are analysed in detail. By illustrating the transformations in colonial urban space at different temporal stages, a new phase is

proposed the trans colonial This provides a conceptual means to avoid the pitfalls of neo colonial and post colonial influences experienced in previous cases and the book goes on to highlight the implications of such a phase on the Palestinians It is an important contribution to studies on Middle East Politics and Urban Geography *The Politics of the Palestinian Authority* Nigel Parsons,2005-06-07 This book explores the development of the Palestinian Liberation Organization PLO from a liberation movement to a national authority the Palestinian National Authority PNA Based on intensive fieldwork in the West Bank Gaza and Cairo Nigel Parsons analyzes Palestinian internal politics and their institutional building by looking at the development of the PLO Drawing on interviews with leading figures in the PLO and the Palestinian Authority delegates to the negotiations with Israel and the Palestinian political opposition it is a timely account of the Israel Palestine conflict from a Palestinian political perspective **Assessment of media development in Palestine** UNESCO Office Ramallah,2014-11-24 **News Media in the Arab World** Barrie Gunter,Roger Dickinson,2013-06-06 Examines the way local national and cross national Arab audiences engage with different news sources and how the rapidly expanding news markets have changed news consumption **The Palestinian Entity, 1959-1974** Moshe Shemesh,1988 Based on primary sources this volume studies the Palestinian Entity with special reference to the PLO in an integrated fashion investigating the complex mutual influences of the development of the Palestinian national movement the politics within the Arab arena and that of the Arab Israeli conflict It examines the commitment of the Arab world to the Palestinian national movement in relation to the movement s dependence on the Arab position and on continued Arab support Moshe Shemesh analyses the processes which led to the establishment of the PLO in 1964 and the take over of the PLO by the Palestinian fidai organisations in 1968 69 Dr Shemesh also studies the development of the Palestinian national movement especially in the West Bank and Gaza Strip between 1968 74 under the leadership of the Fatah which has become its backbone He analyses the significance of the PLO s turn in strategy of June 1974 and the resolutions of the Rabat Arab summit in October 1974 which recognised the PLO as the sole legitimate representative of the Palestinian people *Reality Television and Arab Politics* Marwan M. Kraidy,2010 This book analyzes how reality television fuelled heated polemics over cultural authenticity gender relations and political participation in the Middle East *The Transformation of Palestinian Politics* Barry Rubin,2009-06-01 This book is a comprehensive overview and analysis of the Palestinians travail as they move from revolutionary movement to state Barry Rubin outlines the difficulties in the transition now under way arising from Palestinian history society and diplomatic agreements He writes about the search for a national identity the choice of an economic system and the structure of government Rubin finds the political system interestingly distinctive it appears to be a pluralist dictatorship There are free elections multiple parties and some latitude in civil liberties Yet there is a relatively unrestrained chief executive and arbitrariness in applying the law because of restraints on freedom The new ruling elite is a complex mixture of veteran revolutionaries heirs to large and wealthy families professional soldiers technocrats and Islamic clerics

Beyond explaining how the executive and legislative branches work Rubin factors in the role of public opinion in the peace process the place of nongovernmental institutions opposition movements and the Palestinian Authority's foreign relations including Palestinian views and interactions with the Arab world Israel and the United States This book is drawn from documents in Arabic Hebrew and English as well as interviews and direct observations Rubin finds that overall the positive aspects of the Palestinian Authority outweigh the negative and he foresees the establishment of a Palestinian state His charting of the triumphs and difficulties of this state in the making helps predict and explain future dramatic developments in the Middle East

Peace First Uri Savir, 2008-09-13 Uri Savir has an ambitious indispensable goal to bring peacemaking into the 21st century Little in today's world writes Savir is more progressive than modern warfare Yet little is more archaic than peacemaking We remain trapped in a centuries old mindset with leaders bargaining warily for concessions and signing treaties that collapse because no one on the ground has any real stake in them Drawing on his experiences negotiating the Oslo Peace Accords as well as on trenchant examples from Ethiopia Eritrea Rwanda Sierra Leone Afghanistan India Pakistan Northern Ireland and the former Yugoslavia Savir argues that an enduring peace is built from the bottom up not from the top down He describes a new model based on establishing and nurturing mutually beneficial forms of cooperation beginning on the local level city to city and organization to organization This process of globalization involving local actors in global issues is the first step toward constructing a peace ecology a comprehensive transnational culture dedicated to breaking down the psychological and social barriers between former enemies These efforts are furthered through the establishment of joint ventures that give each side a tangible stake in maintaining peace Diplomacy still has a role but it must reject maneuvering for gain and instead

emphasize the advantages both sides will gain with the cultivation of lasting peace Throughout Savir provides concrete examples of how these concepts have been put into practice And he ends with a detailed vision of how this model could bring an enduring peace in one of the world s most war torn areas the Mediterranean Basin Peace First offers a pragmatic yet revolutionary new approach that promises to end our most intractable conflicts **Censored 1999** Peter Phillips,Project Censored,1999-04-06 The yearly volumes of Censored in continuous publication since 1976 and since 1995 available through Seven Stories Press is dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship The top stories are listed democratically in order of importance according to students faculty and a national panel of judges Each of the top stories is presented at length alongside updates from the investigative reporters who broke the stories Beyond the Top 25 stories additional chapters delve further into timely media topics The Censored News and Media Analysis section provides annual updates on Junk Food News and News Abuse Censored D j Vu signs of hope in the alternative and news media and the state of media bias and alternative coverage around the world In the Truth Emergency section scholars and journalists take a critical look at the US NATO military industrial media empire And in the Project Censored International section the meaning of media democracy worldwide is explored in close association with Project Censored affiliates in universities and at media organizations all over the world A perennial favorite of booksellers teachers and readers everywhere Censored is one of the strongest life signs of our current collective desire to get the news we citizens need despite what Big Media tells us **Benn's Media** ,2006 **Human Rights Under the Palestinian Authority** United States.
