Pictorial Narrative in the Nazi Period Deborah Schultz, Edward Timms, 2013-10-31 This book investigates creative responses to the Nazi period in the work of three artists Felix Nussbaum Charlotte Salomon and Arnold Daghani focusing on their use of pictorial narrative It analyses their contrasting aesthetic strategies and their innovative forms of artistic production In contrast with the autonomous modernist art object their works were explicitly linked with the historical conditions under which they were produced the pressures of persecution and exile Conditions in the slave labour camps and ghettos in the Ukraine which shaped the paintings and drawings of Daghani are contrasted with the experiences of exile in Belgium and France which inspired Nussbaum and Salomon In defiance of conventional artistic practice they produced word image combinations that can be read as narrative sequences incorporating specific references to political events While there has been a wealth of literary philosophical and historical studies relating to the Holocaust aesthetic debate has developed less extensively This is the first comparative study of three artists who are only belatedly achieving recognition and the recent reception of their work is evaluated By identifying the aesthetic principles and narrative strategies underlying their work the book reassesses their achievement in creating new forms of modernism with an unmistakable political momentum This book was published as a special issue of Word Image

Of 'truths Impossible to Put in Words' Rose-Carol Washton Long, 2009 This volume of essays relate Max Beckmann's work to the tangible circumstances of its production and reception The essays contextualise aspects of Beckmann's early middle and

late career by way of detailed reference to contemporary music film philosophy theatre history sports and exile **German Expressionism** Museum of Modern Art (New York, N.Y.), Starr Figura, Peter Jelavich, 2011 Catalog of an exhibition held at the Museum of Modern Art New York Mar 27 July 11 2011 **Modern Painting, Drawing & Sculpture**, 1958 *Visual proficiency - A perspective on art education* Kunibert Bering, Rolf Niehoff, 2015-12-18 Every day over a million images are uploaded to flickr This is a striking example of the so called flood of images that emerged with the beginning of the digital age A generation of adolescents has already been socialised with this flood of images and deals with it on a daily basis both in their networks and elsewhere Art education thus faces significant challenges art is the only school subject that deals with the problems inherent in images as images making them the focus of pedagogic activity This volume presents both the foundations for engaging with the phenomenon of the image in a competent and historically informed manner as well as the perspectives for art education that arise from these foundations It is based upon the conviction that providing orientation in a world defined by images does not mean following solely a technocratic functionalist or even neoliberal concept of education Quite the contrary providing an orientation for how to deal with images in a world that is dominated by them is a crucial part of the holistic development of young people s personalities The volume s main focus lies upon the new functions taken on both by the image and by art more generally It takes into account aspects of globalisation and participation and also includes more unusual views often from a cross media perspective of art and its historical repertory which even current image creation is unable to dispense with The volume also deals extensively with architecture and the images it conveys

Artbibliographies Modern, 2005 Social Forms: A Short History of Political Art Christian Viveros-Faune, 2018-12-20 In an increasingly polarized world with shifting and extreme politics Social Forms illustrates artists at the forefront of political and social resistance Highlighting different moments of crisis and how these are reflected and preserved through crucial artworks it also asks how to make art in the age of Brexit Trump and the refugee and climate crises In Social Forms A Short History of Political Art renowned critic curator and writer Christian Viveros Faun has picked fifty representative artworks from Francisco de Goya s The Disasters of War 1810 1820 to David Hammons s In the Hood 1993 that give voice to some of modern art s strongest calls to political action In accessible and witty entries on each piece Viveros Faun paints a picture of the context in which each work was created the artist s background and the historical impact of each contribution At times artists create projects that subvert existing power structures at other moments they make artwork so powerful it challenges the very fabric of society Whether it is Picasso s Guernica and its place at the 1937 Worlds Fair or Jenny Holzer s Truisms 1977 1979 which still stop us in our tracks this book tells the story behind some of the most important and unexpected encounters between artworks and the real worlds they engage with Never professing to be a definitive history of political art Social Forms delivers a unique and compelling portrait of how artists during the last 150 years have dealt with changing political systems the violence of modern warfare the rise of consumer culture worldwide the prevalence of inequality and

racism and the challenges of technology **Under the Spell of Orpheus** Judith E. Bernstock,1991 This comprehensive view of the Orpheus myth in modern art focuses on an extremely rich artistic symbol and cuts through all the clichés to explore truly significant problems of meaning The author takes a new approach to the iconography of major modern artists by incorporating psychological and literary analysis as well as biography The three parts of the book explore the ways in which artists have identified with different aspects of the often paradoxical Orpheus myth The first deals with artists such as Paul Klee Carl Milles and Barbara Hepworth In the second Max Beckmann Oskar Kokoschka and Isamu Noguchi are discussed Artists examined in the final part include Pablo Picasso Jacques Lipchitz Ethel Schwabacher and Cy Twombly The author documents her argument with more than sixty illustrations **World Collectors Annuary** ,1996 **German Expressionist Painting** Peter Selz,2023-04-28 Published in 1957 German Expressionist Painting was the first comprehensive study of one of the most pivotal movements in the art of this century When it was written however German Expressionism seemed like an eccentric manifestation far removed from what was then considered the mainstream of modern art But as historians well know each generation alters the concept of mainstream to encompass those aspects of the past which seem most relevant to the present The impact of German Expressionism on the art and thought of later generations could never have been anticipated at the time of the original writing of this book During the subsequent years an enormous body of scholarly research and an even larger number of popular books on German expressionist art has been printed Numerous monographs and detailed studies on most of the artists exist now and countless exhibitions with accompanying catalogues have taken place Much of this new research could have been incorporated in a revised edition and the bibliography certainly could have been greatly expanded to include the important writings which have been published in Germany the United States and elsewhere since this book was originally issued The author however was faced with the choice of reprinting the original text with only the most necessary alterations such as updating the captions to indicate present locations of the paintings or the preparation of a revised text and bibliography Desirable as a revision appeared present printing costs would have priced the paperback out of reach for students It is for this reason that I decided to reissue the original text which stands on its own as a primary investigation of German Expressionist Painting The Art Teacher's Book of Lists Helen D. Hume,2010-11-09 A revised and updated edition of the best selling resource for art teachers This time tested book is written for teachers who need accurate and updated information about the world of art artists and art movements including the arts of Africa Asia Native America and other diverse cultures The book is filled with tools resources and ideas for creating art in multiple media Written by an experienced artist and art instructor the book is filled with vital facts data readings and other references Each of the book's lists has been updated and the includes some 100 new lists Contains new information on contemporary artists artwork art movements museum holdings art websites and more Offers ideas for dynamic art projects and lessons Diverse in its content the book covers topics such as architecture drawing painting
