Invasion and Insurrection Jeffery M. Dorwart, 2008 This book seeks to discover when why and how Delaware Valley communities between 1621 when the Dutch West India Company issued instructions for the security and defense of the Delaware River until 1815 as the region abandoned its Committee of Defense of the Delaware at the end of the War of 1812 first used military force to repel invasion in times of war and suppress insurrection in peacetime It traces how these mid Atlantic communities confronted constant threats from real or imagined enemies invasion and insurrection from earliest seventeenth century settlement and articulated ideas and built institutions for security defense and war It argues that from the beginning these Delaware Valley communities failed to differentiate between their concert for defense against external attacks or invasion in wartime with that of providing security for their home communities against internal enemies durins peacetime Though conflicted about using force both to defend against invasion and suppress insurrection over time as the Delaware Valley communities moved to the center of colonial wars revolution and establishment of a republic and constitutional government their long experience with security defense and war that blurred the lines between military defense in wartime and preserving peacetime security eventually fused into Article 1 section 8 of the U S Constitution to empower the congress to use the militia to repel invasion
