

American Government/American History

EOC Study Guide

ENLIGHTENMENT ERA (1600 – 1800)

- The Enlightenment was a 17th century intellectual movement.
- It worked to limit the power of monarch governments (kings and queens) and religious leaders.
- Other important Enlightenment ideas include popular sovereignty and natural rights.
- John Locke believed the job of government was to protect the rights of people or be overthrown, and his ideas greatly influenced the American colonists.
- Major Enlightenment thinkers:
 - Locke = Natural Rights
 - Montesquieu = Separation of Powers
 - Voltaire = Freedom of Speech
- Enlightenment ideas led to the American Revolutionary War, the Declaration of Independence, U.S. Constitution, Bill of Rights, and the French Revolution.

INDUSTRIAL REVOLUTION (CONTINUED)

- Urbanization led to several negative effects:
 - Pollution
 - Dangerous working conditions
 - Long hours and low wages
 - Child labor
 - Slums and poor housing conditions
 - Cramped living spaces and rampant diseases
- Labor unions formed to combat terrible working conditions in factories and sought better pay, shorter hours, and improved conditions.
- Henry Ford – founder of the Ford Motor Company – used the assembly line to produce his cars fast and cheap. This revolutionized manufacturing and gave rise to specialized labor.

INDUSTRIAL REVOLUTION (1750 – 1900)

- The Industrial Revolution took place in the late 1700s in Europe and in the early 1800s in America, and it was a time of technological innovation.
- Improved agricultural technology, like steam-powered tractors and large-scale food processing factories led to increased food yields.
- Railroad linked cities, brought materials to factories more efficiently, increased trade between cities and countries, and allowed people to move more freely.
- Many people moved from rural areas to cities to find work in newly built factories, a movement known as urbanization.

American History Spring Study Guide Answers:

Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history

Journal of Women's History Guide to Periodical Literature, 1992 Gayle V Fischer has produced a terrifically useful volume that no research library should be without The Journal of American History an indispensable resource to finding material on women's history throughout the world Journal of World History the work is recommended for its currency depth of coverage and scope Ethnic Forum As part of its mission to disseminate feminist scholarship and serve as the journal of record for the new area of women's history the Journal of Women's History began a compilation of periodical literature dealing with women's history This volume is drawn from more than 750 journals and includes material published from 1980 through 1990 There are forty subject categories and numerous subcategories The guide lists more than 5 500 articles all are extensively cross listed

Monthly Catalog of United States Government Publications, 1992

Soviet-American Dialogue on the New Deal Otis L. Graham, 1989 The study of U S history has flourished in the Soviet Union during the last several years with much research being published in Soviet journals Since those journals have very limited circulation in the West and since few U S scholars read Russian the Soviet vantage point on American history which often differs considerably from the view of U S scholars has been mostly inaccessible In this volume the first in a series scholars from both nations have cooperated to rectify part of that deficiency by examining one of the most significant decades in American history the 1930s Eleven essays by Soviet historians that were originally published in Soviet journals have been translated into English eight American historians have responded with commentary on those essays and the Soviets have written brief rejoinders The volume thus presents a unique opportunity to learn the contours of Soviet writings on the New Deal to take account of their preoccupations and conclusions and then to read the appraisals of noted U S scholars

New Approaches to Latin American History Richard Graham, Peter H. Smith, 2014-08-27 New Approaches to Latin American History incorporates methods and concepts from the social sciences without abandoning a distinctively historical approach A collection of original essays by distinguished younger scholars it proposes original concepts and methods for analyzing crucial problems in Latin American history Using as examples such subjects as slavery dictatorship immigration and the relationship between land ownership and political power the contributors show how approaches and techniques from psychology political science economics and sociology can be applied to historical studies The papers attempt to explain the thematic and substantive importance of the particular problems at hand describe and evaluate standard approaches to them propose original hypotheses suggest methods for testing the hypotheses or indicate major methodological or conceptual difficulties that have so far hampered such work Despite their diversity of content the papers show strong underlying unities First they all point to the need for placing institutions and actions in a broad societal context The authors present an implicit cumulative argument against the excessive isolation of historical phenomena Second they demonstrate the utility of interdisciplinary research Third they issue an implicit call for rigorous comparative analysis The propositions formulated in these essays can best be tested and modified in comparative fashion Ultimately this book deals with the exposition of a research style a style based on systematic doubt an awareness of the need for conceptual rigor and a willingness to try new methodologies For this reason it is of interest to historians in every field as well as to students of Latin America Air University Review ,1984-05 Contemporary Authors ,2005
