Soviet Union dissolved let alone since 9 11 Our worst fears still could be realized at any time but Michael Krepon argues that the United States has never possessed more tools and capacity to reduce nuclear dangers than it does today from containment and deterrence to diplomacy military strength and arms control The bloated nuclear arsenals of the Cold War years have been greatly reduced nuclear weapon testing has almost ended and all but eight countries have pledged not to acquire the Bomb Major powers have less use for the Bomb than at any time in the past Thus despite wars crises and Murphy's Law the dark shadows cast by nuclear weapons can continue to recede Krepon believes that positive trends can continue even in the face of the twin threats of nuclear terrorism and proliferation that have been exacerbated by the Bush administration's pursuit of a war of choice in Iraq based on false assumptions Krepon advocates a back to basics approach to reducing nuclear dangers reversing the Bush administration's denigration of diplomacy deterrence containment and arms control As he sees it The United States has stumbled before but America has also made it through hard times and rebounded With wisdom persistence and luck another dark passage can be successfully navigated
