

An illustration of two birds, possibly plovers or similar ground-dwelling species, standing on a sandy or muddy surface. Both birds have a prominent, dark, pointed crest on their heads. Their plumage is a mix of brown, grey, and white, with a distinct white patch on the throat and breast. The bird in the foreground is shown in profile, facing left, while the second bird is positioned slightly behind and to the right, also facing left. The background is a simple, light-colored wash.
