as a once outlawed activity promising jail sentences for practitioners alchemy is essentially political It restores power not just to citizens to resist orthodoxies but also to material life otherwise seen as inanimate Giving meaning to the natural material world echoes indigenous traditions that see this world as animated and populated by unseen but felt energies Such energies are the lifeblood of imagination and creativity as the poetic impulse in humanity The Anthropocene is an emergent age of ecological anxiety We need languages and symbol and sign systems to effectively navigate and make meaning of this unfolding age
