Evolve William Spencer, 2023-07-30 Should a species smart enough to foresee its own demise be able to consciously evolve in order to overcome threats to its existence Evolve reveals the nexus of evolutionary biology sustainability and peace on the journey to PACEM 2050 There is a Burning Platform threatening our species Although our species is extremely good at cooperation social polarization is preventing our citizenry from being in adequate alignment to adopt the necessary public policy to mitigate future ecological disaster There are only three scenarios going forward extinction eusocial evolution or a long term cultural intervention to overcome our current lack of conceptual understanding lack of social empathy and lack of decision making to implement the solutions needed to mitigate catastrophe No single government action no corporate solutions or temporary changes in citizen behavior will resolve the challenges we face The problems are interconnected and the path to find solutions represents the solution itself A principle of evolution and

of social change is that only the system can change the system PACEM 2050 is the uncharacteristic social change strategy that changes the structure of how we share the realities of sustainability social polarization and approaching ecological tipping points *Internet Drama and Mystery Television Series, 1996-2014* Vincent Terrace, 2014-12-30 Created around the world and available only on the Web internet television series are independently produced mostly low budget shows that often feature talented but unknown performers Typically financed through online crowd funding they are produced with borrowed equipment and volunteer casts and crews and viewers find them through word of mouth or by chance The second in a first ever set of books cataloging Internet television series this volume covers in depth the drama and mystery genres with detailed entries on 405 shows from 1996 through July 2014 In addition to casts credits and story lines each entry provides a website commentary and episode descriptions Index of performers and personnel are included Reason and Wonder Dave Pruett, 2012-05-08 In this enlightening and provocative exploration Dave Pruett sets out a revolutionary new understanding of our place in the universe one that reconciles the rational demands of science with the deeper tugs of spirituality Defining a moment in human self awareness four centuries in the making Reason and Wonder A Copernican Revolution in Science and Spirit offers a way to move beyond the either or choice of reason versus intuition a dichotomy that ultimately leaves either the mind or the heart wanting In doing so it seeks to resolve an age old conflict at the root of much human dysfunction including today's global ecological crisis An outgrowth of C David Pruett's breakthrough undergraduate honors course From Black Elk to Black Holes Shaping Myth for a New Millennium Reason and Wonder embraces the insights of modern science and the wisdom of spiritual traditions to re enchant the universe The new myth of meaning unfolds as the story of three successive Copernican revolutions cosmological biological and spiritual offers an expansive view of human potential as revolutionary as the work of Copernicus Galileo and Darwin Good Night Stories for Rebel Girls: 100 Inspiring Young Changemakers Jess Harriton, Maithy Vu, Bindi Irwin, Rebel Girls, 2022-10-04 The fifth volume of the best selling Good Night Stories for Rebel Girls series 100 Inspiring Young Changemakers shines a spotlight on extraordinary young women who are making their mark on the world today Readers will celebrate well known women like Greta Thunberg Bethany Hamilton Bindi Irwin Zendaya and the Linda Lindas and meet up and coming powerhouses like inventor Vinisha Umashankar fashion designer Marine Serre stuntwoman Sadiqua Bynum filmmaker Taegen Yardley poet Alexandra Huynh and environmental activist Helena Gualinga The girls and women in the book come from different countries and backgrounds and have a wide array of interests and accomplishments Barrier breaking performer Keke Palmer became the youngest talk show host in US history Entrepreneur Mikaila Ulmer founded a lemonade company to help save honeybees Brazilian skateboarder Rayssa Leal turned a hobby into an Olympic dream And British body positivity advocate Megan Jayne Crabbe and Indigenous artist Te Manaia Jennings inspire kids to keep their minds healthy Each story is told in the whimsical fairy tale style that has made the series a success and is paired with a bold full page portrait With a foreword by conservationist
