Fulfilling the Pledge

Roger C. Hartley, 2024-02-13
An insightful and evidence-based assessment of our urgent need to enact labor law reform and how to achieve it. Millions of non-union workers want unionization, but our current labor management relations law conspires to deny them meaningful opportunities to secure collective workplace representation. The resulting low rates of collective bargaining impose economic, political and social costs on us all. In *Fulfilling the Pledge*, Roger Hartley addresses the plight of American workers who face a grim, uncertain future as the digital workplace reshapes the hierarchical post-World War II industrial relations system that once gave workers a voice. Through empirical evidence and the lens of law and policy, Hartley examines what industrial sociologists call the chronic representation gap and clarifies how a wide-ranging movement could build a vocal constituency for the congressional enactment of labor law reform. The pledge made in the 1935 National Labor Relations Act to encourage establishment of industrial democracy, where workers possess a voice in their places of work, remains unfulfilled. Speaking to policymakers, scholars, historians and the average citizen, *Fulfilling the Pledge* makes a compelling case for collective workplace representation that serves the greater good, even as American labor relations law continues to undermine collective bargaining by workers and becomes an increasingly significant political and social issue.
