Rainforest Masks Gavin Rutherford, 2017-02-02

Masks of Identity Přemysl Mácha, José Eloy Gómez Pellón, 2014-06-02 This collection of essays offers some thoughts on alterity otherness in anthropological praxis viewed through the prism of the Latin American reality It is neither an exhaustive treatment of the problem of Otherness in anthropological theory nor a definitive analysis of the various forms of represented practiced and contested alterities in Latin American history Rather the authors have been brought together by several common concerns The first is an interest in exploring and understanding some of the ways in which Otherness structures social relations at the everyday as well as the national levels The second is a theoretical and methodological question of how the perspective which foregrounds the Other at the expense of the Self might make the anthropological inquiry more effective and emancipatory Thirdly the authors are interested in how they can as researchers teachers and citizens help overcome cleavages which group identities constantly produce in the body of humanity The Others that the authors of this book explore include indigenous peoples mestizos African slaves women insurgent peasants as well as hybrid groups re claiming a new identity While each of the eight authors focuses on social phenomena from different time periods and parts of Latin America they all share as their common denominator the Spanish colonization of the continent which set off a series of events whose consequences eventually exceeded the wildest fantasies of the boldest thinkers of these times The authors particularly focus on the visual representation and performance of alterity but also give room to some non visual ways in which Otherness is established and subverted Inevitably this volume presents a diverse selection of contributions which nevertheless share some common problems concerns and hopes which in their totality provide a complex picture of Otherness in everyday life in historical and contemporary Latin America

Art Effects Carlos Fausto, 2020 In *Art Effects* Carlos Fausto explores the interplay between indigenous material culture and ontology in ritual contexts interpreting the agency of artifacts and indigenous presences and addressing major themes in anthropological theory and art history to study

ritual images in the widest sense Fausto delves into analyses of the body aerophones ritual masks and anthropomorphic effigies while making a broad comparison between Amerindian visual regimes and the Christian imagistic tradition Drawing on his extensive fieldwork in Amazonia Fausto offers a rich tapestry of inductive theorizing in understanding anthropology's most complex subjects of analysis such as praxis and materiality ontology and belief the power of images and mimesis anthropomorphism and zoomorphism and animism and posthumanism Art Effects also brims with suggestive hemispheric comparisons of South American and North American indigenous masks In this tantalizing interdisciplinary work with echoes of Franz Boas Pierre Clastres and Claude Lévi Strauss among others Fausto asks how do objects and ritual images acquire their efficacy and affect human beings

Beyond the Postcard: Deep Travel Writing

Dylan Hill, There s a certain allure to the postcard image of travel sun drenched beaches towering mountains vibrant markets overflowing with exotic goods These picturesque scenes capture a fleeting glimpse of a place a snapshot frozen in time But beyond the postcard lies a world of hidden stories waiting to be discovered It s the whispered tales of ancient civilizations etched into the stones of crumbling temples the rhythm of daily life in bustling street markets the traditions passed down through generations and the stories etched in the faces of the people who call these places home For too long traditional travel writing has relied on surface level descriptions offering superficial glimpses of destinations without delving deeper into their cultural richness historical context or the complexities of human experience This approach while offering a sense of adventure and escapism often fails to capture the true essence of a place leaving readers with a limited understanding of its soul This book challenges the conventional approach to travel writing urging writers to move beyond postcard perfect images and embrace a more meaningful and authentic style of storytelling It s a call to action to delve into the heart of destinations to uncover the hidden stories that shape their identity and to connect with the people who make those stories come alive Deep travel writing is about engaging with the world on a deeper level about exploring the nuances of culture the echoes of history and the shared experiences that bind us all It s about understanding the world through the eyes of the people who inhabit it about listening to their stories and about weaving those stories into narratives that resonate with readers and offer a deeper understanding of our interconnected world This book will serve as your guide on this journey We will explore the principles of deep travel writing from researching destinations beyond the surface to crafting immersive narratives that capture the essence of a place We will learn how to observe listen and connect with the world in a way that transcends superficiality and delves into the heart of human experience Whether you are an aspiring or seasoned travel writer a journalist a blogger or simply someone with a passion for exploring the world this book will provide you with the tools and inspiration you need to embark on your own journey of deep travel writing It s a journey that promises to enrich your experiences deepen your understanding of the world and empower you to tell stories that matter **Legal**

William Van Zyl,2023-12-29 I have produced a fictitious short story about how Lara and Alexander the two archaeologists found the elusive El Dorado temple and unearthed the Golden Mask In this resource including the exciting legend of the elusive city of El Dorado I look at the story the gold the treasure the golden mask and a modern day escape room I provide prompts for using technology in the context of creating an El Dorado themed escape room Inspired by my visit to an escape room in Hamilton NZ in December 2023 I show how technology like digital sensors surveillance cameras and more could be used in escape rooms I use a simple microprocessor like the Arduino Uno to show how this microprocessor could detect light and switch a rack and pinion powered by an electric motor to open a door Just like Lara and Alexander opened the door by reflecting the shaft of daylight from the cave roof onto the mirrors and the Sun motif I use the Arduino an LDR light dependent resistor a relay and an electric motor to show how a door in an escape room can be opened This resource could be helpful to teachers and students The focus is integrating different subject areas for a lesson for high school students For example the brief is to design an El Dorado themed escape room I focus on technical aspects like art design and electronics digital sensors surveillance cameras servos racks and pinions and more to detect switch and move doors The focus is also on how to create a light sensor LDR light dependent resistor to detect when a mirror reflects light that suddenly comes from a crack in the cave an electrical light switched on after a symbolic puzzle is solved Improving and

developing collaboration and solving real life problems is another aspect I investigate I look at the design of a board game context Escape room Developing creative and innovative skills of students and teachers I also touch on renewable systems Installing solar panels wind turbines inverters and 12 Volt DC batteries on a micro scale to power an escape room or a model of an escape room Lastly I provide links to cave ecosystems I include the Waitomo Caves in New Zealand famous glowworms See the ideas and concepts for possible lessons for students in this article It is challenging to layer embed and integrate different subject areas into one or a set of lessons
