Focus on Grammar and Meaning Luciana C. de Oliverira, Mary J. Schleppegrell, 2016-06-28 Focus on Grammar and Meaning explores how to teach grammar effectively to second or foreign language learners aged 5-18. It provides teachers with research insights that will help them to reflect on their classroom practice and enable them to experiment with different ways of teaching grammar. Taking a systemic functional approach, the authors emphasize the importance of linking language and meaning in teaching. Key research studies on grammar instruction are featured; examples from real classroom practice are examined, and activities are provided to help teachers relate the content to their own teaching context. Governance and Planning of Mega-City Regions Jiang Xu, Anthony Yeh, 2010-09-13 Provides a comparative treatment and examination of how new approaches in governance and planning are reshaping mega-city regions around the world. The contributors highlight how European mega-city regions are evolving and strategic intervention redefined to enable the integration of urban qualities in a multi-level governance environment; how traditional federal countries in North America and Australia see the promise of major policies and development initiatives finally moving ahead to herald a more strategic intervention at national and regional scales; and how transitional economies in China witness the rise of state strategies to control the articulation of scales and to reassert the functional importance of state in a growing diffused power context.

Asian/American Curricular Epistemicide Nicholas D. Hartlep, Daniel P. Scott, 2016-08-18 In this important book, Nicholas Hartlep and Daniel Scott's detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans. As Hartlep and Scott write, Asian Americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality. Over and over again, the media has been telling a single story about Asian Americans to the public for the past fifty years. The consequence of this fabricated story is that it discourages others, even Asian Americans themselves, from believing in the validity of their struggles. Linshi, 2014, p. 1.

A New Pathway to World Peace Ted Becker, Brian Polkinghorn, 2017-09-25 Horrific changes are descending upon humanity; most of them man-made, all of them threatening the survival of humankind on Mother Earth. Forever wars, the threat of nuclear destruction, the ecology collapsing, worldwide swelling waves of migrants, and unprecedented global inequality of wealth are upon us. The dominant modern worldview prevailing for many centuries has produced all the above and needs swift and radical change. Central to this unfolding tragedy stands the United States, boasting its exceptionalism. Alexis de Tocqueville's *Democracy in America* coined and defined how America was an exceptional nation. However, the America he lauded in the early 1800s and what it

has become today are as different as Antarctica and Hawaii. This book is designed to pry open the eyes and minds of people everywhere about the true nature of the US as a spiritual and political but not militaristic nation one to emulate and with whom to collaborate on helping resolve the violence and myopia plaguing humankind right now. It illuminates a new way to reshape American thinking and that of the whole world sensibly and with sensitivity to all humanity and the planet itself. But you must read to the last word to absorb the entire vision.

Whitewashing War Christopher Leahey, 2015-04-24. Whitewashing War explores perhaps the most critical issue social studies educators presently face: How do we teach our students about war? In this timely book, Christopher Leahey investigates how the political struggles over the social studies curriculum, the corporate domination of the textbook and testing industry and the curricular constraints of the No Child Left Behind Act combine to stifle historical inquiry and deprive students of meaningful social studies instruction. Using the controversial Vietnam War as a case study, Leahey holds textbook narratives up to the light, illuminating how the adoption process, interpretive framework and selection of evidence combine to transform the past into thinly veiled historical myths. By attending to questions traditionally ignored in history education, this dynamic book
