Defending Same-Sex Marriage Martin Dupuis, William A. Thompson, Traci C. West, 2006-12-30 Today we find ourselves at a crossroads of two powerful unrelenting currents that are completely at odds with one another The movement for legal recognition of same sex

unions has gone beyond the separate but equal status of civil unions to demand equality in marriage for all couples Progress is being made on many fronts mayoral action clergy officiating at same sex marriage and union ceremonies state legislative responses and street protests to name a few Meanwhile opposition to same sex marriage has also been gathering strength The struggle is sure to continue unabated for some time to come pitting those who believe in the traditional definition of marriage as a union between a man and a woman and who seek to codify this belief in the U S Constitution against those who find the basis for marriage between two loving committed individuals not only in the history of our civil rights legislation and court decisions but also in scripture and sacred religious traditions Those who believe in extending to same sex couples the 1 049 rights conferred by marriage as well as the supportive embrace of religious communities seek to strengthen the institution of marriage by making it inclusive and by passing laws and broadening doctrines to uphold marriage rights for all couples This three volume set clarifies the legal political religious cultural and social ramifications of same sex marriage for gay and lesbian couples and their families and friends and for the general public interested in the future of civil rights in the United States

The Generational Gap in American Politics Patrick Fisher,2022-09-30 This book examines the history of the generational gap in American politics with an emphasis on the remarkable contemporary gap Using data derived primarily from the American National Election Studies ANES 2020 National Election Pool A P VoteCast and the Pew Research Center Patrick Fisher argues that the political environment experienced by successive generations as they have come of age politically influences political attitudes throughout one s life The result is that different generations have distinct political leanings that they will maintain over their lifetimes Fisher examines each generation from the Greatest Generation through to Generation Z who have recently started to come of voting age He cites the entry of the Millennial Generation and Generation Z into the electorate as completely changing the generational dynamics of American politics through their distinct political leanings that are significantly to the left of older generations As a result he concludes that demographically politically economically socially and technologically the generations are more different from each other now than at any time in living memory The Generational Gap in American

Politics will appeal to a scholarly and public audience interested in American politics in general and political behavior in particular Understanding American Government John Gruhl, Michael Steinman, 1995-01-01 Includes appendix
