YaÊ¼ir Oron

American History 13th Edition Alan Brinkley Notes:

The Age of Catastrophe Heinrich August Winkler, 2015-09-28 Characterized by global war political revolution and national crises the period between 1914 and 1945 was one of the most horrifying eras in the history of the West A noted scholar of modern German history Heinrich August Winkler examines how and why Germany so radically broke with the normative project of the West and unleashed devastation across the world In this total history of the thirty years between the start of World War One and the dropping of atomic bombs on Hiroshima and Nagasaki Winkler blends historical narrative with political analysis and encompasses military strategy national identity class conflict economic development and cultural change The book includes astutely observed chapters on the United States Japan Russia Britain and the other European powers and Winkler's distinctly European perspective offers insights beyond the accounts written by his British and American counterparts As Germany takes its place at the helm of a unified Europe Winkler's fascinating account will be widely read and debated for years to come

The Tolerant Populists Walter Nugent, 2024-05-31 A political movement rallies against underregulated banks widening gaps in wealth and gridlocked governments Sound familiar More than a century before Occupy Wall Street the People's Party of the 1890s was organizing for change They were the original source of the term populism and a catalyst for the later Progressive Era and New Deal Historians wrote approvingly of the Populists up into the 1950s But with time and new voices led by historian Richard Hofstadter the Populists were denigrated depicted as demagogic conspiratorial and even anti-Semitic In a landmark study Walter Nugent set out to uncover the truth of populism focusing on the most prominent Populist state Kansas He focused on primary sources looking at the small towns and farmers that were the foundation of the movement The result **The Tolerant Populists** was the first book length source based analysis of the Populists Nugent's work sparked a movement to undo the historical revisionism and ultimately found itself at the center of a controversy that has been called one of the bloodiest episodes in American historiography This timely re release of **The Tolerant Populists** comes as the term finds new currency and new scorn in modern politics A definitive work on populism it serves as a vivid example of the potential that political movements and popular opinion can have to change history and affect our future

America, History and Life, 2004 Article abstracts and citations of reviews and dissertations covering the United States and Canada

American History Unbound Gary Y Okihiro, 2015-08-25 American History Asians and Pacific Islanders is a survey history of the United States from its beginnings to the present as revealed by Asian American and Pacific Islander history As such this textbook is a work of history and anti history a narrative and an account at odds with most standard versions of the nation's past When seen from its margins the US is an island and an outcome of oceanic worlds a periphery and a center a nation and a nation among nations Asian and Pacific Islander history transforms fundamentally our understanding of American history Provided by publisher

Achieving Democracy Sidney A. Shapiro, Joseph P. Tomain, 2014 Democracy is the ability to participate freely and equally in the political and economic affairs

of the country Americans have relied on philosophical pragmatism and on the impulse of political progressivism to express those creedal democratic values Achieving Democracy argues that in the last 30 years however by focusing on free markets and small government America has since lost its grasp on these crucial democratic values Economically the vast majority of Americans have been made worse off due to a historically unprecedented redistribution of wealth from the lower and middle classes to the top one percent Politically partisan gridlock has hampered efforts to seek fairer taxes responsive and effective regulation reliable health care and better education among other needs Achieving Democracy critiques the history of the last 30 years of neoliberal government in the United States and enables an understanding of the dynamic and changing nature of contemporary government and the future of the regulatory state Sidney A Shapiro and Joseph P Tomain demonstrate how lessons from the past can be applied today to regain essential democratic losses within the successful framework of a progressive government to ultimately construct a good society for all citizens

Catholics in the American Century R. Scott Appleby, Kathleen Sprows Cummings, 2012-11-15 Over the course of the twentieth century Catholics who make up a quarter of the population of the United States made significant contributions to American culture politics and society They built powerful political machines in Chicago Boston and New York led influential labor unions created the largest private school system in the nation and established a vast network of hospitals orphanages and charitable organizations Yet in both scholarly and popular works of history the distinctive presence and agency of Catholics as Catholics is almost entirely absent In this book R Scott Appleby and Kathleen Sprows Cummings bring together American historians of race politics social theory labor and gender to address this lacuna detailing in cogent and wide ranging essays how Catholics negotiated gender relations raised children thought about war and peace navigated the workplace and the marketplace and imagined their place in the national myth of origins and ends A long overdue corrective Catholics in the American Century restores Catholicism to its rightful place in the American story

The American War in Vietnam John Marciano, 2016-08 Cover The American War in Vietnam Title Copyright Contents Acknowledgments Introduction The Commemoration Story 1 The Noble Cause Principle and the Actual History 2 French Colonialism and the Origins of the American War in Vietnam 3 The Diem Regime and President John F Kennedy 4 President Johnson and Escalation of the War 5 President Nixon Vietnamization and the End of the War 6 Some Lessons and Myths of the American War in Vietnam Notes Bibliography Index

The Struggle to Limit Government John Samples, 2010-04-21 In 1980 Ronald Reagan said It is time to check and reverse the growth of government which shows signs of having grown beyond the consent of the governed This book surveys the highlights and low points of the nearly 30 year struggle to limit American government set against the big government world of the New Deal and the Great Society

The Pain Of Knowledge Ya'air Oron, This book asks how the moral messages of the Holocaust can best be transmitted It deals not with historical events but with possible ways of learning about these events and their significance The underlying purpose is to expose the reader to sometimes antithetical and at other times

complementary views concerning the teaching of the subject *The Collapse of Fortress Bush* Alasdair Scott Roberts,2008

When the Bush presidency began to collapse pundits were quick to tell a tale of the imperial presidency gone awry a story of secretive power hungry ideologues who guided an arrogant president down the road to ruin But the inside story of the failures of the Bush administration is both much more complex and alarming says leading policy analyst Alasdair Roberts In the most comprehensive balanced view of the Bush presidency to date Roberts portrays a surprisingly weak president hamstrung by bureaucratic constitutional cultural and economic barriers and strikingly unable to wield auth *Hard Living in America's Heartland* Paula vW. Dáil,2015-01-28 Despite living hard endlessly challenging lives the rural poor remain tirelessly optimistic believing things will get better next year As one struggling farmer explained Sometimes I feel like a jackass in a hailstorm I just have to stand here and take it but what the hell it ll stop hailing sooner or later The struggle to survive on the richest farmland in America has produced some of the nation s poorest people However rural poverty is not the same as urban poverty the usual definitions and criteria do not always apply the known predictors do not necessarily hold up and again and again the rural poor save themselves because they know no one else will This book refutes the common image of the poor as lazy slackers averse to work In reality fiercely independent politically astute hard working men and women who possess a wide array of useful skills populate the rural heartland and they struggle to stay afloat in small town economies that rise and fall on the whims of remote farm policy decisions a volatile world marketplace and Mother Nature who is a fickle wildly unpredictable business partner The World War II Bond Campaign Lawrence R. Samuel,2025-02-04

How America s greatest marketing triumph in World War II shaped race ethnicity and class in modern America The World War II Bond Campaign is a history of the World War II bond drive led by the federal government an effort called the most successful marketing operation in history By the war s end some 85 million Americans had spent 186 billion in an unprecedented outpouring of patriotism that contributed to the military victory and the prosperity of the following decades The FDR administration used bonds to raise capital to support the war and promote national unity within the context of the nation s increasingly pluralistic society as the melting pot theory was retired African Americans Euro Americans and labor union members enthusiastically bought bonds to express national loyalty but also to demonstrate racial ethnic or class pride a reflection of their dualistic or hyphenated identities Drawing on various primary sources The World War II Bond Campaign illustrates how the Treasury Department s multicultural marketing strategies tapped into Americans aspirations alongside their patriotic impulses Citizens of all social and economic backgrounds eagerly responded to what can be seen as the selling of America making the subject an ideal lens to view national identity at a critical moment in the country s history The author contends that the drive s success helped pave the way for the emergence of both the civil rights movement and the vigorous consumer culture of the postwar years **The New York Times Index** ,2009 **Labor and the American Left** Mel van Elteren,2011-10-14 According to public opinion data over the past decade most Americans hold center left attitudes

regarding key economic and social policy issues Recent polls even show significant support of socialism among American adults especially self identified Democrats and the millennial generation At the same time the focus of the mass media has been on a widespread right wing populism while movements on the left seem to lack political clout In order to better understand this dichotomy this book explores relations between organized labor and left wing parties and movements in America at crucial junctures from the 1870s to the present Providing fresh insight into current political developments it highlights emerging alternatives and major challenges facing labor and the left today *The Rise and Decline of the American Century* William O. Walker III, 2018-10-15 No detailed description available for The Rise and Decline of the American Century *The Fundamentals of Extremism* Kimberley Blaker, 2003 The politics educational policies and social values perpetuated by Christian fundamentalists are exposed in this critical perspective on the religious right s role in American society Statistics and studies of the movement are offered that provide insight into the causes and characteristics of fundamentalism and its effects on minority groups including women children African Americans gays and lesbians Essays from a variety of authors consider the path to theocracy the effect of the theology of inerrancy on politics and the state of fundamentalism in the United States after the September 11 2001 terrorist attacks *Chronic Politics* Philip J. Funigiello, 2005 Funigiello unlocks the puzzle of why the United States has never guaranteed its citizens health security comparable to that enjoyed by people of other first world nations and he tells what needs to happen for policy reform to take place Examining specific episodes in the history of health care financing he highlights the importance of key individuals in the legislative process the political haggling involved in shaping a bill the clash of personalities and agendas that determines its fate and the extent to which American ideas about fairness are reflected in the result BOOK JACKET **Journal of Environmental Law and Litigation** , 1997 **Advancing the Cause of Education** Indiana State Teachers Association, 2004 Over the next 150 years members of the Association stood ready to advance the cause of education This advancement was neither steady nor easy The Association endured many crises some financial and some organizational Pushed at times by charismatic leaders and driven at other times by the winds of cultural change the Association was and still is an organization of individuals The history of ISTA is divided into three eras The first period deals with the defining of the Association and chronicles its quest for universal public education and its efforts to establish professional standards and secure benefits for teachers Although this group of educators was a loosely knit association of individuals they were able to accomplish much Jacket *A Peculiar Imbalance* William D. Green, 2008-10-14 Unearths previously untold stories of African Americans in early Minnesota
