BOPOD - Wong's Nursing Care of Infants and Children Marilyn J. Hockenberry, David Wilson, 2014-01-30 The most trusted authority in pediatric nursing

Wong's Nursing Care of Infants and Children provides unmatched comprehensive coverage of pediatric growth development and conditions. Its unique age and stage approach covers child development and health promotion as well as specific health problems organized by age groups and body systems. Leading pediatric experts Dr. Marilyn Hockenberry and David Wilson provide an evidence-based clinical perspective based on nearly 30 years of hands-on experience. Easy to read and extensively illustrated, this edition focuses on patient-centered outcomes and includes updates on topics such as the late preterm infant, immunizations, the H1N1 virus, and childhood obesity. A clear, straightforward writing style makes content easy to understand. Unique Evidence-Based Practice boxes help you apply both research and critical thought processes to support and guide the outcomes of nursing care. Unique Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Unique Critical Thinking exercises help you test and develop your own analytical skills. A unique focus on family content emphasizes the role and influence of the family in health and illness with a separate chapter. Discussions throughout the text and family-centered care boxes. Nursing Care Guidelines provide clear, step-by-step, detailed instructions on performing specific skills or procedures. Unique Emergency Treatment boxes serve as a quick reference for critical situations. Unique Cultural Awareness boxes highlight ways in which variations in beliefs and practices affect nursing care for children. A developmental approach identifies each stage of a child's growth. Health promotion chapters emphasize principles of wellness and injury prevention for each age group. Student-friendly features include chapter outlines, learning objectives, key points, references, and related topics and electronic resources to help you study and review important content. A community focus helps you care for children outside the clinical setting. Nursing Care Plans include models for planning patient care with nursing diagnoses, patient/family goals, nursing interventions, rationales, expected outcomes, and NIC and NOC guidelines. Nursing Tips include helpful hints and practical clinical information, and Nursing Alerts provide critical information that must be considered in providing care.

Wong's Nursing Care of Infants and Children - E-Book Marilyn J.

Hockenberry, 2022-12-23 American Journal of Nursing AJN Book of the Year Awards 1st Place in Child Health. Provide quality nursing care through each stage of child development. Wong's Nursing Care of Infants and Children, 12th Edition, uses an easy-to-follow, family-centered approach to describe the care of children at each age and stage of development. The book begins with a discussion of the influences on and assessment of child health, then provides chapters on child health promotion and health problems, all organized by age groups and body systems. Up-to-date, evidence-based information helps you develop critical thinking skills along with the sensitivity needed to become a compassionate, caring pediatric nurse. Written by a team of experts led by Marilyn J. Hockenberry, Wong's continues to be the leading text in pediatric nursing. Focus on family-centered care emphasizes the role and influence of the family in child health and illness with a separate chapter, and Family-Centered Care boxes. Full-color drawings and photographs reflect the latest in nursing care. Nursing Care Guidelines boxes offer clear, step-by-step instructions for interventions in a variety of situations and conditions, and Nursing Care Plan boxes

included expected patient outcomes and rationales for nursing interventions Nursing Tips include helpful hints and practical clinical information Translating Evidence into Practice and Applying Evidence to Practice boxes help you apply research to improve the outcomes of nursing care Atraumatic Care boxes contain techniques for care that manage pain discomfort or stress along with approaches to promote self esteem and prevent embarrassment Emergency Treatment boxes serve as a quick reference for interventions in critical situations Cultural Considerations and Cultural Competence content provides tips from clinical experts Community and Home Health Considerations boxes address issues such as increasing immunization rates decreasing smoking among teens and preventing lead poisoning Drug Alerts highlight important drug related information for safe appropriate care Nursing Alerts call out critical considerations such as key assessment data risk factors and danger signs that must be considered in providing care Research Focus boxes emphasize research with concise reviews of important evidence

Wong's Essentials of Pediatric Nursing - E-Book Marilyn J. Hockenberry,David Wilson,Cheryl C Rodgers,2021-03-05 Selected for Doody s Core Titles 2024 with Essential Purchase designation in Pediatrics As the 1 title in the pediatric nursing market for

over 40 years Wong's Essentials of Pediatric Nursing 11th Edition continues to leverage its trademark developmental approach as it equips readers with the very latest research and guidelines for treating children today. The text utilizes a highly readable writing style and encourages a whole body approach beginning with child development and health promotion to better understand the later chapters on specific health problems. This new eleventh edition also features Next Generation NCLEX style case studies and questions, a new chapter covering all systems cancers, additional case studies within the nursing care plans, and updated and expanded evidence-based content throughout to best reflect the latest standards and trends impacting pediatric nursing care today. Developmental approach clearly identifies developmental tasks and influences at each stage of a child's growth. Emphasis on wellness features health promotion chapters for each developmental stage of childhood. Critical thinking case studies with answers are found throughout the text. Quality patient outcomes are highlighted within nursing management discussions for major diseases and disorders. Drug alerts draw attention to potential safety issues reflecting QSEN safety initiative. Family focus includes a separate family chapter as well as family content and Family Centered Care boxes integrated throughout the text. Community Focus boxes provide resources and guidance on caring for children outside the clinical setting. Evidence Based Practice boxes focus attention on the application of research and critical thought processes to support and guide the outcomes of nursing care. Chapter on complementary alternative therapy covers timely topics to aid in providing complete comprehensive care. Nursing care plans provide a model for planning patient care and include rationales that provide the why. Research Focus boxes highlight current studies that impact pediatric nursing today. Cultural content and Cultural Considerations boxes are integrated throughout the text to draw attention to customs and beliefs of different cultures that influence childcare. Atraumatic Care boxes contain techniques for care that minimize pain, discomfort, or stress. Nursing tips offer helpful hints and practical clinical information of a non-emergency nature. Nursing alerts feature critical information that MUST BE considered in providing care. Emergency Treatment sections provide a quick reference in critical situations. Nursing care guidelines provide clear step-by-step instructions for performing specific skills or procedures.

Pediatric Dysphagia Jay Paul Willging, Claire Kane Miller, Aliza P. Cohen, 2019-12-09

Pediatric Dysphagia: Etiologies, Diagnosis, and Management is a comprehensive professional reference on the topic of pediatric feeding and swallowing disorders. Given that these disorders derive from abnormalities in the function and/or structure of the airway and digestive systems, multiple clinical specialists may be involved in the evaluation and management of affected children at any given point in time. Therefore, this text includes significant contributions from a wide range of experts in pediatric dysphagia, including all members of the Interdisciplinary Feeding Team at Cincinnati Children's Medical Center. These experts present an in-depth description of their roles in the diagnosis and management of dysphagic children, providing the reader with an understanding of why a multidisciplinary model of care is key to the optimization of outcomes. **Pediatric Dysphagia** is divided into five parts. In Part I, readers are provided with an overview of the embryologic development

of aerodigestive structures that relate to swallowing an introduction to neural organization related to swallowing function and physiologic aspects of swallowing a synopsis of oral motor development a discussion of the various etiologic categories of feeding and swallowing disorders and an overview of genetic disorders associated with feeding and swallowing issues Part II covers the clinical and instrumental assessment of patients including the interdisciplinary feeding team infrastructure and function the roles of individual members of the feeding team the specific diagnostic tests commonly used in the assessment of feeding and swallowing issues the classification of neonatal intensive care units and the assessment and management of feeding and swallowing issues encountered in the neonatal intensive care unit Part III focuses on the management of pediatric dysphagia covering a wide range of treatment strategies and interventions for children with various categories of feeding disorders Part IV includes an introduction to the concept of evidence based practice and the application of evidence based strategies in the management of dysphagia Part V presents a brief overview of the role of ethics in healthcare and ethical considerations in the treatment of dysphagic children In summary the overall aim of this comprehensive text is to provide all pediatric professionals involved in the care of dysphagic patients with a basic understanding of the complexity of this disorder the anatomic neurologic and physiologic components involved in this disorder an overview of the diverse population of children who suffer with this disorder and with a wide range of management approaches based on patient needs and capabilities The authors also address clinical problem solving and decision making inspiring readers to develop multidisciplinary models of care at their own institutions
