Intermediate Pieces for Classical Guitar Lily Afshar, 2020-03-12. Intermediate level guitarists will enjoy playing through this varied collection of pieces all in one volume. A wide gamut of composers from the Renaissance to the nineteenth century is included along with a few anonymous contributions. Continuing with the techniques and carefully thought out fingerings and notation employed in Dr Afshar's previous publication *Beginning Pieces for Classical Guitar*, selections like Carcassi Study 3 and Sor Studies Nos 5 and 6 require the execution of rest stroke technique on their melodies in order to distinguish them clearly from the concurrent free stroke accompaniment. In the same spirit, Study No 5 by Fernando Sor has been written out in a way that clearly shows the melody as it appears on beats one and three. The nine movement suites by Gaspar Sanz and Robert de Visé introduce the student guitarist to Baroque dances and ornamentation. *Promised Land* Peter Irvine, 2022-10-01. With this collection of 26 folk hymns, author Peter Irvine brings shape note music into the home and provides adaptable music for a variety of instrumental ensembles. This format allows for instruments such as the mountain dulcimer, Native American or transverse flute, penny whistle, fiddle, mandolin, guitar and so forth. Anyone can play shape note music even when Sacred Harp gatherings or singings are not easily accessible. The hymns in this collection are drawn from various classic shape note sources like *Southern Harmony* 1835 and *The Sacred Harp* 1844. Presented in lead sheet format, melody, chords and lyrics, and written in keys accessible to all C instruments and several D instruments such as the penny whistle and mountain dulcimer, the material offers plenty of arrangements. Hymns can be sung by a soloist, in unison, by a small group with chordal accompaniment or a mixed ensemble.

Learning the Classic Guitar Aaron Shearer, 1990. *Learning the Classic Guitar* is a new direction in guitar instruction. Many ideas in these books break new ground. In developing this innovative method, Mr Shearer adhered to the following concepts: 1. How and what students practice is as important as how much they practice. 2. Give information only when it is immediately useful. 3. Start with the easiest skills. 4. Approach challenging skills gradually. Part one focuses on technical development and explains the most efficient approach to study and practice. Part two should go along with part one and it presents the elements of music and procedures for developing ability to sight read and memorize. It also introduces the visualization concept. Part three teaches the student to form clear and accurate concepts of music expression. It also teaches the guitarist how to perform in public with accuracy.
