Philosophies of Appropriated Religions Soraj Hongladarom, Jeremiah Joven Joaquin, Frank J. Hoffman, 2023-12-21 This book brings together different intercultural philosophical points of view discussing the philosophical impact of what we call the appropriated religions of Southeast Asia. Southeast Asia is home to most of the world religions. Buddhism is predominantly practiced in Thailand, Vietnam, Myanmar, Singapore, Laos, and Cambodia. Islam in Malaysia, Indonesia, and Brunei, and Christianity in the Philippines and Timor-Leste. Historical data show, however, that these world religions are imported cultural products and have been reimagined, assimilated, and appropriated by the culture that embraced them. In this collection, we see that these appropriated religions imply a culturally nuanced worldview which in turn impacts how the traditional problems in the philosophy of religion are framed and answered in particular questions about the existence and nature of the divine, the problem of evil, and the nature of life after death. Themes explored include religious belief and digital transition, Theravada Buddhist philosophy, religious diversity, Buddhism and omniscience, indigenous belief systems, divine apology, and unmerited human suffering, dualism, and the problem of evil. Buddhist philosophy and Spinoza's views on death and immortality, belief and everyday realities in the Philippines, comparative religious philosophy, gendering the Hindu concept of dharma, Christian devotion and salvation during the Spanish colonial period in the Philippines through the writings of Jose Rizal, indigenous Islamic practices in the Philippines, practiced traditions in contemporary Filipino celebrations of Christmas, role of place aspects in the appropriation of religions in Southeast Asia, and fate and divine omniscience. This book is of interest to scholars and researchers of philosophy of religion, sociology of religion, anthropology of religion, cultural studies, comparative religion, religious studies, and Asian studies.
