Handbook of Research on Educational Communications and Technology J. Michael Spector,M. David Merrill,Jan Elen,M. J. Bishop,2013-07-03 The 4th edition of the Handbook of Research on Educational Communications and Technology expands

upon the previous 3 versions providing a comprehensive update on research pertaining to new and emerging educational technologies. Chapters that are no longer pertinent have been eliminated in this edition with most chapters being completely rewritten, expanded and updated. Additionally, new chapters pertaining to research methodologies in educational technology have been added due to expressed reader interest. Each chapter now contains an extensive literature review documenting and explaining the most recent outstanding research, including major findings and methodologies employed. The Handbook authors continue to be international leaders in their respective fields; the list is cross-disciplinary by design and great effort was taken to invite authors outside of the traditional instructional design and technology community.

Unobtrusive Observations of Learning in Digital Environments Vitomir Kovanovic, Roger Azevedo, David C. Gibson, Dirk Ifenthaler, 2023-06-13. This book integrates foundational ideas from psychology, immersive digital learning environments supported by theories and methods of the learning sciences, particularly in pursuit of questions of cognition, behavior and emotion factors in digital learning experiences. New and emerging foundations of theory and analysis based on observation of digital traces are enhanced by data science, particularly machine learning with extensions to deep learning, natural language processing and artificial intelligence brought into service to better understand higher order thinking capacities such as self-regulation, collaborative problem solving and social construction of knowledge. As a result, this edited volume presents a collection of indicators or measurements focusing on learning processes and related behavior, meta-cognition, emotion and motivation as well as social processes. In addition, each section of the book includes an invited commentary from a related field such as educational psychology, cognitive science, learning science, etc.
