Vistas de España Mary Elizabeth Boone, 2007-01-01 In the decades following the American Civil War and leading up to the First World War a definitive shift in power took place between Spain and the United States This original book explores American artists perceptions of Spain during this period of turmoil and demonstrates how their responses to Spanish art helped to answer emerging complex questions about American national identity M Elizabeth Boone focuses on works by Thomas Eakins Mary Cassatt William Merritt Chase John Singer Sargent Robert Henri and other American artists who traveled to Spain to study the achievements of such great masters as Murillo Velazquez and Goya The resulting American paintings some well known and others now largely forgotten provide intriguing insights not only into the 19th century American struggle to define itself as an imperial power but also into the relations between the United States and the Spanish speaking world today **VISTA Volunteer** ,1968 **Vistas hispánicas** Clay Benjamin Christensen, David E. Gil, Heather Marsden, 2013-06-26 This book proposes that research into generative second language acquisition GenSLA can be applied to the language classroom Assuming that Universal Grammar plays a role in second language development it explores generalisations from GenSLA research The book aims to build bridges between the fields of generative second language acquisition applied linguistics and language teaching and it shows how GenSLA is poised to engage with researchers of second language learning outside the generative paradigm Each chapter of Universal Grammar and the Second Language Classroom showcases ways in which GenSLA research can inform language pedagogy Some chapters include classroom research that tests the effectiveness of teaching particular linguistic phenomena Others review existing research findings discussing how these findings are useful for language pedagogy All chapters show how generative linguistics can enhance teachers expertise in language and second language development This groundbreaking volume ably takes on the gap that currently exists between generative linguistic theory in second language acquisition GenSLA and second language pedagogy by gathering chapters from GenSLA researchers who are interested in the relevance and potential application of their research to second foreign language teaching It offers a welcome and thought provoking contribution to any discussion of the relation between linguistic theory and practice I recommend it not only for language teachers interested in deepening their understanding of the formal properties of the languages they teach but also for linguists interested in following up on more practical consequences of the fruits of their theoretical and empirical research Donna Lardiere Georgetown University Washington DC USA

Helen Goff LeBlanc, 1972 **Framing Majismo** Tara Zanardi, 2016-03-08 Majismo a cultural phenomenon that embodied the popular aesthetic in Spain from the second half of the eighteenth century served as a vehicle to regain Spanish heritage As expressed in visual representations of popular types participating in traditional customs and wearing garments viewed as historically Spanish majismo conferred on Spanish citizens the pictorial ideal of a shared national character In Framing Majismo Tara Zanardi explores nobles fascination with and appropriation of the practices and types associated with majismo as well as how this connection cultivated the formation of an elite Spanish identity in the late 1700s and aided the Bourbons objective to fashion themselves as the legitimate rulers of Spain In particular the book considers artistic and literary representations of the majo and the maja purportedly native types who embodied and performed uniquely Spanish characteristics Such visual examples of majismo emerge as critical and contentious sites for navigating eighteenth century conceptions of gender national character and noble identity Zanardi also examines how these bodies were contrasted with those regarded as foreign finding that foreign and national bodies were frequently described and depicted in similar ways

She isolates and uncovers the nuances of bodily representation ultimately showing how the body and the emergent nation were mutually constructed at a critical historical moment for both Elementary and Secondary Education Amendments of 1969 United States. farm R. H. Mottram,2025-03-02 R H Mottram s The Spanish Farm is a poignant exploration of the psychological and emotional landscapes forged during the horrors of World War I Set against the backdrop of the Spanish countryside the narrative deftly intertwines the experiences of soldiers civilians and their interactions with the land emphasizing themes of loss anxiety and the search for solace amid chaos Mottram employs a rich evocative prose style that captures both the beauty and brutality of war immersing the reader in the characters internal struggles as they grapple with the far reaching effects of conflict on their lives and identities R H Mottram an English author and war correspondent draws upon his own experiences to inform the storytelling in The Spanish Farm His exposure to the complexities of human emotion in the face of adversity significantly shapes the depth of the characters and the authenticity of their experiences Mottram s keen observations reflect a long standing interest in the intersection of landscape and humanity which permeates his body of work and lends a profound sense of realism to this narrative This book is a must read for anyone interested in the psychological impacts of war as well as the interplay between nature and human experience Mottram s insightful portrayal of resilience in times of despair offers a timeless meditation on how individuals navigate the scars of conflict making The Spanish Farm a relevant and enriching read for both literary enthusiasts and historical fiction aficionados **Assessment in Higher Education** Samuel

J. Messick,2013-12-16 Assessment in Higher Education brings together in one place most of the major issues confronting higher education in the 1990s These include enhancing student access development and success in higher education transforming admissions testing to meet expanding educational needs resolving the politics of accountability by assessing quality outcomes of higher education assuring fair assessment responsive to human diversity and facing the technological future of higher education An integrative thread that weaves through all of these issues is the concept of equity especially as it bears on social justice in education and on fairness in assessment Another integrative thread is the role of computer and multimedia technology not only in improving the efficiency and power of all the functions of higher education assessment but also in revolutionizing the delivery of higher education itself
