to satisfy his doubts The interviewers often ask simple questions in a very twisted fashion to confuse the candidates Difficult questions answers reflect the knowledge of the giver as well as his overall personality For example Which is heavier a kilogram of feathers or 1000 grams of lead Solution Both the weights are equal And What happened in Kolkata yesterday from 8 to 9 o clock Solution An hour had passed These questions have a trick because they are framed in such a way that the answers seem simple but in reality they are not It can be said that the questioners confuse the candidates as they hide their answers using rhetorical resources and various devices In some cases the answer is found in the question itself but in secret Tricky questions are also used for fun or as a mental activity of logical practice Like a truck driver passing down a street in the wrong direction some policemen saw him but they didn't say anything to him why Solution Because the truck driver was on foot He shaves all day but still has a beard who is he Solution Barber Some months have thirty days and others thirty one but how many months have twenty eight Solution Every month has at least twenty eight days Which object becomes wet When it dries Solution Towel How do you draw a square with three lines Solution draw the square first and then draw three lines inside the square Thus an answer to a tricky question can lead to confusion due to the confusion generated question These types of questions are very specific to the areas in which people's knowledge or behavior is evaluated Generally such difficult questions can be perceived as misleading or incorrect because something is being implied that is not in reality However they can also be seen as methods whose precise purpose is to test the candidate and determine whether he or she is fully capable of answering the question that he or she is saying I know In this way about five thousand questions and answers have been given in the present book which is equally useful for all competitive examinations *How to Pass History* College Publishing Corporation, Brooklyn, 1967 *Doing History* Linda S. Levstik, Keith C. Barton, 2011-01-26 Now in its fourth edition this popular text offers a unique perspective on teaching and learning history in the elementary and middle grades Through case studies of teachers and students in diverse classrooms and from diverse backgrounds it shows children engaging in authentic historical investigations often in the context of an integrated social studies curriculum The central assumption is that children can engage in valid forms of historical inquiry collecting and data analysis examining the perspectives of people in the past considering multiple interpretations and creating evidence based historical accounts In each chapter the authors explain how the teaching demonstrated in the vignettes reflects basic principles of contemporary learning theory thus providing specific examples of successful activities and placing them in a theoretical context that allows teachers to adapt and apply them in a wide variety of settings New in the Fourth Edition Expanded coverage of world history in two new chapters Integration of new technologies to support history instruction Updated classroom examples bibliographies and references **The Queries Magazine**, 1890 **A Catalogue of New Works in General Literature** Longman, Brown, Green, Longmans, & Roberts, 1857 **China, During the War and Since the Peace** Sir John Francis Davis, 1852 Wanderings in the Land of Ham A daughter of Japhet, Daughter of Japhet, 1858 The earliest known part of
