Official Gazette of the United States Patent and Trademark Office ,2005 *The Realities of Adaptive Groundwater Management* William Blomquist,2021-03-01 This book has three primary objectives The first objective is to provide scholars with a more realistic view of adaptive management without arguing against adaptive management Adaptive management is necessary as well as desirable but it is not easy and demonstrating that through the Chino Basin experience is an important goal The second objective is to provide practitioners with encouraging yet cautionary lessons about the challenges and benefits of an adaptive approach in similar fashion as the first objective the goal here is to endorse the adaptive approach but in a clear eyed manner that clarifies how hard it is and how much it requires A third objective is to show all audiences that resource governance systems can fail change and succeed There is no such thing as an ideal institutional design that is guaranteed to work rather making institutional arrangements work entails learning and adjustment when they begin to show problems as they inevitably will **Hearing on National Defense Authorization Act for Fiscal Year 2013 and Oversight of Previously Authorized Programs Before the Committee on Armed Services, House of Representatives, One Hundred Twelfth Congress, Second Session** United States. The Struggle for the People's King Hajar Yazdiha,2023-05-30 How the misuses of Martin Luther King s legacy divide us and undermine democracy In the post civil rights era wide ranging groups have made civil rights claims that echo those made by Black civil rights activists of the 1960s from people with disabilities to women s rights activists and LGBTQ coalitions Increasingly since the 1980s white right wing social movements from family values coalitions to the alt right now claim the collective memory of civil rights to portray themselves as the newly oppressed minorities The Struggle for the People s King reveals how as these powerful groups remake collective memory toward competing political ends they generate offshoots of remembrance that distort history and threaten the very foundations of multicultural democracy In the revisionist memories of white conservatives gun rights activists are the new Rosa Parks antiabortion activists are freedom riders and antigay groups are the defenders of Martin Luther King s Christian vision Drawing on a wealth of evidence ranging from newspaper articles and organizational documents to television transcripts press releases and focus groups Hajar Yazdiha documents the consequential reimagining of the civil rights movement in American political culture from 1980 to today She shows how the public memory of King and civil rights has transformed into a vacated sanitized collective memory that evades social reality and perpetuates racial inequality Powerful and persuasive The Struggle for the People s King demonstrates that these oppositional uses of memory fracture our collective understanding of who we are how we got here and where we go next *Federal Register* ,2013-05 *Toward a World-class Passenger Rail System in California*

California. Legislature. Senate. Committee on Transportation and Housing, 2014 **Addiction Medicine E-Book** Bankole Johnson, 2019-12-12 Integrating scientific knowledge with today's most effective treatment options *Addiction Medicine Science and Practice 2nd Edition* provides a wealth of information on addictions to substances and behavioral addictions. It discusses the concrete research on how the brain and body are affected by addictions, improving your understanding of how patients develop addictions and how best to personalize treatment and improve outcomes. This essential text is ideal for anyone who deals with patients with addictions in clinical practice, including psychiatrists, health psychologists, pharmacologists, social workers, drug counselors, trainees, and general physicians/family practitioners. Clearly explains the role of brain function in drug taking and other habit-forming behaviors and shows how to apply this biobehavioral framework to the delivery of evidence-based treatment. Provides clinically relevant details on not only traditional sources of addiction such as cocaine, opiates, and alcohol, but also more recently recognized substances of abuse, e.g., steroids, inhalants, as well as behavioral addictions, e.g., binge eating, compulsive gambling, hoarding. Discusses current behavioral and medical therapies in depth while also addressing social contexts that may affect personalized treatment. Contains new information on compliance-enhancing interventions, cognitive behavioral treatments, behavioral management, and other psychosocial interventions. Includes neurobiological, molecular, and behavioral theories of addiction and includes a section on epigenetics. Contains up-to-date information throughout, including a new definition of status epilepticus, a current overview of Lennox-Gastaut syndrome, and updates on new FDA-approved drugs for pediatric neurological disorders. Features expanded sections on evidence-based treatment options, including pharmacotherapy, pharmacogenetics, and potential vaccines. Addresses addiction in regards to specific populations, including adolescents, geriatric, pregnant women, and health care professionals. Includes contributions from expert international authors, making this a truly global reference to addiction medicine. **Range Wars** Ryan H. Edgington, 2014-07-01 Established in south central New Mexico at the end of World War II, White Sands Missile Range is the largest overland military reserve in the western hemisphere. It was the site of the first nuclear explosion, the birthplace of the American space program, and the primary site for testing U.S. missile capabilities. In this environmental history of White Sands Missile Range, Ryan H. Edgington traces the uneasy relationships between the military, the federal government, local ranchers, environmentalists, state game and fish personnel, biologists, and ecologists, state and federal political figures, hunters, and tourists after World War II as they all struggled to define and productively use the militarized western landscape. Environmentalists, ranchers, tourists, and other groups joined together to transform the meaning and uses of this region, challenging the authority of the national security state to dictate the environmental and cultural value of a rural American landscape. As a result, White Sands became a locus of competing geographies informed not only by the far-reaching intellectual, economic, and environmental changes wrought by the cold war, but also by regional history, culture, and traditions.

The Way to the Spring Ben Ehrenreich, 2016-06-16 This is a book about Palestine today. It is neither apologetic nor

romanticized but a powerful and brilliantly realized scream of a book scorching and tender from a journalist whose anger and empathy burn through every word Over the past three years Ben Ehrenreich has shared the laughter fury and sorrow of people in cities and villages across the West Bank young and old people men and women He has witnessed the extremes to which they are pushed the daily deprivation and oppression that they face the strategies they construct to survive it stoicism resignation rebellion humour and a stubborn defiant joy In *The Way to the Spring* he describes the cruel mechanics of the Israeli occupation and the endless absurdities and tragedies it engenders the complex and humiliating machinery of the checkpoints walls courts and prisons the steady strangling loss of lands that have been passed down for generations the constant ebb and flow of deadly violence Blending political and historical context with the personal stories of the people Ehrenreich meets *The Way to the Spring* is a testimony a provocation and a vital document Written with grace and power it breathes fresh life and urgency to a place and a conflict that too easily disappears in the shouting This is a necessary book an unflinching act of witnessing

The Devil's Fruit Dvera I. Saxton, 2021-02-12 *The Devil's Fruit* describes the facets of the strawberry industry as a harm industry and explores author Dvera Saxton's activist ethnographic work with farmworkers in response to health and environmental injustices She argues that dealing with devilish as in deadly depressing disabling and toxic problems requires intersecting ecosocial emotional ethnographic and activist labors Through her work as an activist medical anthropologist she found the caring labors of engaged ethnography take on many forms that go in many different directions Through chapters that examine farmworkers embodiment of toxic pesticides and social and workplace relationships Saxton critically and reflexively describes and analyzes the ways that engaged and activist ethnographic methods frameworks and ethics aligned and conflicted and in various ways helped support still ongoing struggles for farmworker health and environmental justice in California These are problems shared by other agricultural communities in the U S and throughout the world

War Virtually Roberto J. González, 2024-04-23 A critical look at how the US military is weaponizing technology and data for new kinds of warfare and why we must resist *War Virtually* is the story of how scientists programmers and engineers are racing to develop data driven technologies for fighting virtual wars both at home and abroad In this landmark book Roberto J González gives us a lucid and gripping account of what lies behind the autonomous weapons robotic systems predictive modeling software advanced surveillance programs and psyops techniques that are transforming the nature of military conflict González a cultural anthropologist takes a critical approach to the techno utopian view of these advancements and their dubious promise of a less deadly and more efficient warfare With clear accessible prose this book exposes the high tech underpinnings of contemporary military operations and the cultural assumptions they're built on Chapters cover automated battlefield robotics social scientists involvement in experimental defense research the blurred line between political consulting and propaganda in the internet era and the military's use of big data to craft new counterinsurgency methods based on predicting conflict González also lays bare the processes by which the Pentagon and US

intelligence agencies have quietly joined forces with Big Tech raising an alarming prospect that someday Google Amazon and other Silicon Valley firms might merge with some of the world's biggest defense contractors War Virtually takes an unflinching look at an algorithmic future where new military technologies threaten democratic governance and human survival

Reparative Justice in Authoritarian States Brian Wong Yue Shun, 2025-10-30 Wong examines the normative responsibilities of citizens in authoritarian states to address the injustices perpetrated by their governments He challenges prevailing assumptions in political philosophy arguing that certain citizens by virtue of their agency and authorisation of their states bear responsibilities to compensate oppose commemorate or apologise over injustices that take place in such states The book explores the relationship between authoritarian regimes and the citizens who enable or endure them offering a fresh perspective on questions of reparative justice moral agency and accountability in contexts where state actors fail to meet their obligations Drawing upon political philosophy history sociology and international relations it adopts a richly interdisciplinary approach for understanding citizen liability in authoritarian states Case studies encompassing historical examples such as the Soviet Union Indonesia under Suharto South Korea under Park Chung hee through to contemporary cases such as the Iranian Myanmar and Russian states bridge theory and lived experiences illuminating the complex dynamics of justice in non democratic contexts The advancement of a novel General Authorisation View offers original insights that extend beyond authoritarian regimes addressing broader implications of reparative justice for all regime types Posing critical questions about the evolving responsibilities of citizens in shaping just societies this is an indispensable resource for scholars and students of political philosophy international relations and empirical political science as well as those interested in authoritarianism reform in non democratic contexts and global justice
