reflected the multidimensional nature of our research and was built around the priority research areas for the school

- 1 Sustainable Energy stands as a testament to our commitment to a greener more efficient future We aim to advance energy technology and play a key role in addressing the increasing demand for sustainable and low carbon technologies while reducing environmental impact and ensuring a sustainable environment Our work helps to drive forward net zero solutions for achieving the government carbon targets
- 2 Advanced Manufacturing represents cutting edge research into materials systems and transformative technologies to transform engineering and economic performance in the transport energy generation and manufacturing industries Our research in this area focuses on developing smart materials and structures and sustainable manufacturing processes that help create a sustainable and greener economy
- 3 Civil Infrastructure takes centre stage as we improve the sustainability and resilience of infrastructure across the UK and the globe We work on developing sustainable and resilient total lifecycle solutions across a wide range of domains including construction structures energy geo environmental and water infrastructure systems From creating new nano scale smart materials to macro scale urban interventions
- 4 Compound Semiconductors and Applications represents the cutting edge of electronics a critical driver of progress in the digital age We explore the latest developments in compound semiconductor materials advanced characterisation techniques quantum optics and novel circuit design methodologies and their diverse applications We anticipate breakthroughs that will power the next generation of computing communication and sensing technologies
- 5 Engineering for Health forms a cornerstone of our discussions recognizing the pivotal role technology plays in revolutionizing healthcare We are applying the latest research in medical engineering to push the boundaries in areas where innovation has the potential to transform patient care
