

Experimenting with Differentiation

As a teacher, you will have to experiment with differentiating your lessons to meet the needs of your learners.

1. Experiment with questions in lessons	2. Explore what this does to learners	3. Experiment with new ideas
• Ask questions that challenge your learners to think deeply about the content. • Ask questions that require your learners to apply their knowledge to new situations. • Ask questions that require your learners to evaluate the content and make a judgement.	• Observe how your learners respond to the questions. • Note the level of engagement and the quality of the responses. • Reflect on the effectiveness of the questions and the impact on your learners.	• Try different types of questions, such as open-ended, closed, and leading questions. • Try different ways of asking questions, such as using a think-pair-share strategy. • Try different times to ask questions, such as at the beginning, middle, and end of a lesson.

As you experiment with differentiating your lessons, you will need to reflect on the following:

1. What evidence do you have that your learners are engaged and learning?
2. What evidence do you have that your learners are applying their knowledge to new situations?
3. What evidence do you have that your learners are evaluating the content and making a judgement?
4. What evidence do you have that your learners are using their knowledge to solve problems?

As you reflect on this paper, follow the steps, experiment, and reflect on the results. You will be using the following:

1. Experimenting with questions
2. Exploring what this does to learners
3. Experimenting with new ideas

Answers For Experimenting With Confederation:

Award of the Fishery Commission Halifax Commission (1877),1878

The Canadian Federalist Experiment

Frederick Vaughan,2003 In The Canadian Federalist Experiment Frederick Vaughan details how the fathers of Confederation defiantly determined to perpetuate monarchical government despite Enlightenment philosophy that insisted that republicanism was the only legitimate form of government embraced the Hobbesian principles of the English constitution and embedded them in the new Canadian constitution in 1867 leading to concentration of power in the office of the prime minister He then argues that Trudeau s 1982 Charter quietly undermined the monarchic character of the constitution by introducing republican principles of government The result has been old institutional structures at odds with the republican ambitions leaving Canada clinging to the wreckage of the old aristocratic order while attempting to provide a new order founded on republican equality Vaughan shows how at the time of Confederation Edward Freeman a Cambridge historian who convinced John A Macdonald to experiment with what no one had ever heard of before a monarchic federation and Jean Louis DeLolme a popular French authority on the English constitution helped forge a new federal constitution with a strong central government and a chief executive armed with the powers necessary to govern Vaughan examines how these principles were undermined by the judicial activism of the Judicial Committee of the Privy Council which paved the way for the significant expansion of judicial power under the Charter since 1982

Apocalypse Dan J. Harvey, 2023-06-13 John's Revelation is the most misunderstood book of the Bible. Even church fathers Martin Luther and other Protestant leaders questioned its inclusion in the Bible. The book of Revelation is not meant to be a complex puzzle itching to be solved. Rather, it is a first-century document that needs to be understood in the context of the Greco-Roman world while paying close attention to the hundreds of allusions to Old Testament Scripture. It is one of the most updated and comprehensive analyses of Africa's most important and populous nation that has been undermined in recent decades by ethnic and religious conflict, political instability, rampant corruption, and an ailing economy. **The Texas Experiment** William V.
