Arif and Rohit are childhood friends. Though they come from different religious background but there is very good understanding between them . After completing MBA both decided to take care of the friendship a step further and become business partners. They decided to start a wire manufacturing business . They know that the factory of wire manufacturing pollutes the environment. They are contemplating on two options . First option is to established the factory in rural area. The poor and illiterate local residents will not be aware of the adverse effects of pollution and thus Arif and Rohit can manufacture wire at low cost of production. Second option is to install an advanced pollution control plant in their factory to control the pollution by avoiding bat smoky chimneys and fulfill their social responsibility . But it will require additional cost of Rs. 1,35,000 and increase the cost of production. After lot of thinking both friends choose the second option and decided to set up their factory in the rural area with advance to pollution control plant.

Corporate Governance, Organizational Ethics, and Prevention Strategies Against Financial Crime Hyacinthe Yirlier Somé,Narjess Boubakri,Omrane Guedhami,2025-03-14 This book examines how corporate ethics social responsibility and prevention strategies against financial crime may remedy shortcomings of corporate governance Corporate governance

structures and mechanisms may contribute to enhancing the value of integrity in organizational life. Nonetheless, executives and directors who emphasize a structural and procedural way of thinking often miss the point. Corporate governance structures and mechanisms can favor practices of integrity and righteousness. But those structures and mechanisms have deficiencies since they cannot allow the organization to avoid corporate deviancy and delinquency. The book describes how corporate governance and social responsibility reports and programs may allow executives and directors to deepen the meaning of corporate governance as it is related to organizational culture. Furthermore, the volume discusses how corporate governance structures and mechanisms, including the board of directors and shareholder activism, might have a significant impact on the way integrity is safeguarded in an organization. The contributions shed light on methods to clarify and extend the implications of corporate governance while taking risk management strategies into account.
