

Tails wag at SPCA's spooky fundraiser

Chanté Bottoms

Green Hills — The Randfontein SPCA brought the community together for an evening of fun and fundraising at the Halloween Dance in support of their ongoing work with animals.

Volunteer member Brenda Elloff explained that the SPCA is currently facing financial challenges.

"When the idea of hosting a dance to raise funds was suggested, the team immediately embraced it," Brenda said.

She added that they were overjoyed when the owners of Fantasy Farmyard generously offered their venue free of charge. The idea for the dance came from many new community members. Lynette and Manché Fournier, with Manché also serving as the chairperson.

more.

"We are extremely grateful for their love, passion and dedication to the SPCA, our animals and our staff," Brenda said.

Funds were raised through ticket sales, games and auctions held throughout the evening. Several local businesses also donated prizes that were given away during the evening.

"We have many monthly expenses such as fuel, salaries, vet bills, water, and electricity. Without fundraisers, we simply can't cover these costs. Events like this allow us to continue doing what we love — rescuing and caring for animals," Brenda explained.

She concluded, "I want to thank every person who contributed to the success of the evening from the bottom of my heart. To our community who supported us with such enthusiasm, you are our heroes."

Support dog shelter this Christmas

Green Hills — No More Tears Animal Rescue is getting into the festive spirit with a range of Christmas goodies — all in support of the animals they care for.

Volunteer Clarisse Kruger said the organisation is selling T-shirts, mugs, and bags to help cover expenses for the animals they rescue.

She explained that last month, they raised R10 000, most on their t-shirt sales, which led to the idea of making and selling bags to raise funds. The bags measure 30cm x 30cm, can be customised with names, and make for great Christmas gifts.

Their festive mugs and T-shirts, available in various sizes, are also on sale.

Help bring Buksie back home

Green Hills — Buksie, a beloved Yorkshire terrier, has been missing for almost three weeks, and his owner, Blanche Christmas-Potterman, is pleading for help from the community to find him.

Buksie disappeared on October 24, between 12:30 and 13:00, in Kander Street, Green Hills. According to Blanche, he was wearing a brown leather collar with a tag that reads "dancer" and is also microchipped. He has a distinct white oval scar on his previous injury, making him easily recognisable.

Blanche said that despite her continued

search at the SPCA and local vets, as well as posting on several online groups, there has been no information about Buksie's whereabouts.

"Keeping faith has become more difficult by the day, because how can such a small dog just disappear?" she said, adding that the loss has taken an emotional toll on the family.

"We really miss him; he would get so excited when we came home. We just hope that whoever finds him will be kind enough to return him — or at least give him a loving home," she added.

She also urged pet owners to take extra care of their animals and to remain hopeful if faced with a similar situation.

Anyone with information about Buksie's whereabouts can contact No More Tears at 1504 or Blanche on 083 494 2802.

A second chance for Winny the goat

Green Hills — Winny, the goat formerly known as Sally, has made a remarkable recovery after receiving specialist treatment. She can now even stand for short periods.

On September 26, the Herald reported on Sally, who was found by No More Tears Animal Rescue in a field beside the road — alone and unable to use her hind legs. Sally has since been adopted into a loving family, who renamed her Winny.

Clarisse Kruger, a volunteer at No More Tears, said they were delighted to share the positive update.

"Winny was adopted with great love and found her forever home. Before her adoption, we made sure she received the necessary vet attention and the best possible care to make a complete recovery."

Kruger said that after a thorough examination, it became clear Winny had broken hips, which explained her inability to use her hind legs. Giving her up, however, was never an option, as she already held a special place in everyone's heart and still feels like family to them.

On their vet's recommendations, Winny was taken to the Johannesburg Specialist Vet, who confirmed that an operation would carry more risk than benefit. She was placed on cage rest while receiving ongoing treatment and plenty of love.

"She is doing excellently. She's starting to use her hind leg for short periods, and one day she even stood up completely — to everyone's surprise. It was though she's only standing for brief moments, this small but meaningful progress is a wonderful sign of recovery. We are hopeful that, with time, Winny will make a full recovery," Kruger said.

Kruger noted that Winny's rehabilitation is a slow and patient process. She remains on cage rest with gentle exercises to improve her mobility, with the focus on comfort, stability and muscle recovery.

"Naturally, she's being spoiled properly — her favourite snack, fresh carrots, is always within reach," Kruger added.

Although Winny hasn't fully recovered yet, she continues to show daily improvement and is using her hind leg more. Kruger said that while Winny may have a slight limp, she certainly has her personality and zest for life back.

"It's an amazing win in Winny's incredible resilience. Despite all the challenges she faced, she never lost her spirit. Her journey is a beautiful testament to the power of love, patience and hope in bringing true healing. We'd like to express our sincere gratitude to everyone who contributed to her recovery. Winny's story reminds us that every animal deserves a chance at love, care and a happy life," Kruger concluded.

Winny is doing much better.

The LD50 (median Lethal Dose) Toxicity Test, 1980-1988 Karen J. Clingerman, 1989 *The LD50 (median Lethal Dose) and LC50 (median Lethal Concentration) Toxicity Tests, January 1980 - August 1990* Karen J. Clingerman, 1990 **Record of Current Educational Publications**, 1921 *British Nuclear Weapons and the Test Ban* John Walker, 2023-05-05 This book provides an overview of how the UK tried to maintain and modernize its strategic and tactical nuclear weapons during 1974-82 whilst also pursuing a comprehensive nuclear test ban treaty. The core question addressed in the book is how a test ban treaty would impact on the reliability and safety of the UK's nuclear weapons and how this would constrain and limit efforts to secure a comprehensive treaty that would prohibit nuclear testing indefinitely. An added complication lay in the fact that a ban treaty could also prevent or limit the UK's ability to test new warhead designs to replace its existing tactical nuclear weapons and a new strategic successor system to Polaris. How all of this played out between 1974 and 1982 when the UK announced its decision to acquire Trident and the US decided that a test ban treaty was no longer in its security interests is discussed. A detailed review based on the available materials in the UK National Archives also looks at the aims and objectives of UK nuclear tests in Nevada and on the decisions taken on the Chevaline warhead and its Trident replacement. The book also considers whether there was a far greater threat to the UK nuclear programme from shortages of skilled craftsmen and industrial action at the Atomic Weapons Establishment at Aldermaston than from a test ban treaty. It also looks at whether nuclear defence trumped arms control objectives during this period. This book will be of much interest to students of British politics, nuclear proliferation and Cold War History. **Catalogue** United States Naval Academy, 1980 **The LD50 (median Lethal Dose) and LC50 (median Lethal Concentration) Toxicity Tests** Michael D.
