**NASA's First Space Shuttle Astronaut Selection** David J. Shayler,Colin Burgess,2020-07-10 Unofficially they called themselves the TFNG or the Thirty Five New Guys Officially they were NASA s Group 8 astronauts selected in January 1978 to train for orbital missions aboard the Space Shuttle Prior to this time only pilots or scientists trained as pilots had been assigned to fly on America s spacecraft but with the advent of the innovative winged spacecraft the door was finally opened to non pilots including women and minorities In all 15 of those selected were categorised as Pilot Astronauts while the other 20 would train under the new designation of Mission Specialist Altogether the Group 8 astronauts would be launched on a total of 103 space missions some flying only once while others flew into orbit as many as five times Sadly four of their number would perish in the Challenger tragedy in January 1986 In their latest collaborative effort the authors bring to life the amazing story behind the selection of the first group of Space Shuttle astronauts examining their varied backgrounds and many accomplishments in a fresh and accessible way through deep research and revealing interviews Throughout its remarkable 30 year history as the workhorse of NASA s human spaceflight exploration twice halted through tragedy the Shuttle fleet performed with magnificence So too did these 35 men and women swept up in the dynamic thrust and ongoing development of America s Space Shuttle program This book on the Group 8 Astronauts the TFNGs is an excellent summation of the individuals first selected for the new Space Shuttle Program It provides insight into what it took to first get the Space Shuttle flying For any space enthusiast it is a must read Robert L Crippen PLT on STS 1 As a reader I had many moments where long lost memories of the triumph and tragedy of the space shuttle program were brilliantly reawakened at the turn of a page Loved it This is a must have book for every space enthusiast s library TFNG Mission Specialist Astronaut Richard

Mike Mullane author of *Riding Rockets The Outrageous Tales of a Space Shuttle Astronaut* Many of the anecdotes in the book brought back memories of challenges opportunities and a team of men and women who were committed not just to the space program but to one another I've gone back to it several times as a reference source TFNG Steve Hawley 5 time Space Shuttle Mission Specialist Astronaut The TFNG book is incredible and amazingly thorough The detail in the book is awesome It is my go to book for any of the details I've forgotten TFNG Dr Rhea Seddon 3 time Space Shuttle Mission Specialist Astronaut I can't believe how detailed and complete it is FANTASTIC work TFNG Robert L Hoot Gibson 5 time Space Shuttle Pilot Commander and former Chief of the NASA Astronaut Office

**Social Hygiene in Twentieth Century Britain** Greta Jones, 2025-04-01 In the early twentieth century a group of writers and publicists began to talk and write about social hygiene or more commonly known as the theory of eugenics By this they meant the improvement of the quality of the population by a conscious intervention in the biological laws which governed its growth development and reproduction This discussion led to the foundation of several social hygiene eugenics organisations the Eugenics Society the National Council for Mental Hygiene the Central Association for Mental Welfare the People's League of Health the New Health Society the National Institute for Industrial Psychology and several others First published in 1986 *Social Hygiene in Twentieth Century Britain* now with a new preface by the author suggests that they were linked by a set of interrelated ideas about health and social progress which was influential in the period from the First World War to the aftermath of the Second Its basic contention is that these groups were influenced by Social Darwinism and that they based their policies on two foundations the elimination of the unfit and the improvement of the general level of industrial and personal efficiency among the working class The book offers a critique of Foucault's theory of the development of the sciences of human life as well as relating the ideas of these groups to the social climate of British life The social management they envisaged was based on an expectation of deflation and a high level of unemployment They can thus be seen as throwing light on developments in Conservative policy on family life and the like
