**Insecure Guardians** Zoha Waseem, 2022-11-15 The police force is one of the most distrusted institutions in Pakistan notorious for its corruption and brutality In both colonial and postcolonial contexts directives to confront security threats have empowered law enforcement agents while the lack of adequate reform has upheld institutional weaknesses This exploration of policing in Karachi Pakistan's largest city and financial capital reveals many colonial continuities Both civilian and military regimes continue to ensure the suppression of the policed via this institution itself established to militarily subjugate and exploit in the interests of the ruling class However contemporary policing practice is not a simple product of its colonial heritage it has also evolved to confront new challenges and political realities Based on extensive fieldwork and almost 150 interviews this ethnographic study reveals a distinctly postcolonial condition of policing Mutually reinforcing phenomena of militarisation and informality have been exacerbated by an insecure state that routinely conflates combatting crime maintaining public order and ensuring national security This is evident not only in spectacular displays of violence and malpractice but also in police officers routine work Caught in the middle of the country's armed conflicts their encounters with both state and society are a story of insecurity and uncertainty

**Speaking Truths** Valerie Chepp,2022-02-11 The twenty first century is already riddled with protests demanding social justice and in every instance young people are leading the charge But in addition to protesters who take to the streets with handmade placards are young adults who engage in less obvious change making tactics In *Speaking Truths* sociologist Valerie Chepp goes behind the scenes to uncover how spoken word poetry and young people s participation in it contributes to a broader understanding of contemporary social justice activism including this generation s attention to the political importance of identity well being and love Drawing upon detailed observations and in depth interviews Chepp tells the story of a diverse group of young adults from Washington D C who use spoken word to create a more just and equitable world Outlining the contours of this approach she interrogates spoken word activism s emphasis on personal storytelling and truth the strategic uses of aesthetics and emotions to politically engage across difference and the significance of healing in sustainable movements for change Weaving together their poetry and personally told stories Chepp shows how poets tap into the beautiful emotional personal and therapeutic features of spoken word to empathically connect with others advance intersectional and systemic analyses of inequality and make social justice messages relatable across a diverse public By creating allies and forging connections based on friendship professional commitments lived experiences emotions artistic kinship and political views this activist approach is highly integrated into the everyday lives of its practitioners online and face to face Chepp argues that spoken word activism is a product of and a call to action against the neoliberal era in which poets have come of age characterized by widening structural inequalities and increasing economic and social vulnerability She illustrates how this deeply personal and intimate activist approach borrows from builds upon and diverges from previous social movement paradigms Spotlighting the complexity and mutual influence of modern day activism and the world in which it unfolds *Speaking Truths* contributes to our understanding of contemporary social change making and how neoliberalism has shaped this political generation s experiences with social injustice

**Prisons, Punishment, and the Family** Rachel Condry,Peter Scharff Smith,2018

Every year millions of families are affected by the imprisonment of a family member. Children of imprisoned parents alone can be counted in millions in the USA and in Europe. It is a bewildering fact that while we have had prisons for centuries and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century, we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society. This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular upon the families of offenders. It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and collateral consequences of imprisonment but also to understand what the experiences and lived realities of prisoners' families means for the sociology of punishment and our broader understanding of criminal justice systems. While punishment and society scholarship has gained significant ground in recent years, it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment. This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy, citizenship, human rights, marginalization, exclusion, and inequality.

**What Is Ancient History?** Walter Scheidel, 2025-04-22. From one of today's most innovative ancient historians, a provocative new vision of why ancient history matters and why it needs to be told in a radically different global way. It's easy to think that ancient history is well and truly obsolete, irrelevant, unjustifiably focused on Greece and Rome, and at risk of extinction. In *What Is Ancient History*, Walter Scheidel presents a compelling case for a new kind of ancient history: a global history that captures antiquity's pivotal role as a decisive phase in human development, one that provided the shared foundation of our world and continues to shape our lives today. For Scheidel, ancient history is when the earliest versions of today's ways of life were created and spread, from farming, mining, and engineering to housing and transportation, cities and government, writing and belief systems. Transforming the planet, this process unfolded all over the world in Eurasia, Africa, and the Americas, often at different times, sometimes haltingly but ultimately unstoppably. Yet it's rarely studied or taught that way. Since the eighteenth century, Western intellectuals have dismembered the ancient world, driven not only by their quest for professional expertise but also by nationalism, colonialism, racism, and the idealization of Greece and Rome. Specialized scholarship has fractured into numerous academic niches, obscuring broader patterns and dynamics and keeping us from understanding just how much humanity has long had in common. The time has come, Scheidel argues, to put the ancient world back together by moving beyond the limitations of Greco-Roman classics, by systematically comparing ancient societies, and by exploring early exchanges and connections between them. The time has come, in other words, for an ancient history for everyone.
