mathematics and others analyse the ways in which students solve situations that involve basic and complex mathematical concepts The approaches adopted in the description and interpretation of the data obtained in the studies documented in this book point out the limits the development and the possibilities of students thinking and present didactic and cognitive perspectives to the learning scenarios in different school settings Mathematical Reasoning of Children and Adults Teaching and Learning from an Interdisciplinary Perspective will be a valuable resource for both mathematics teachers and researchers studying the development of mathematical reasoning in different fields such as mathematics education educational psychology cognitive psychology and developmental psychology

The Language of Mass Shooter Manifestos Emily Powell,2025-05-30 Bringing together scholarship from corpus linguistics forensic linguistics and criminology this book offers a nuanced exploration of moral agency in the pre crime narratives of offenders The volume seeks to complement existing literature in forensic linguistics which often explore criminal narratives elicited after the crime with the benefit of hindsight by examining texts written in the midst of events Analyses draw on a corpus of over 200 000 words of manifestos and diaries written by four lone attackers who perpetrated mass shootings and put together accounts of their lives and the preparation for their crimes Incorporating stylistic approaches to non fiction texts with those from corpus linguistics Powell explores the ways in which these texts influence perpetrators and future offenders and more broadly the role of narrative as it relates to harmful actions A closing section includes a taxonomy of moral agency which may serve as the foundation for future research on understanding agency responsibility and offending from a linguistic perspective This book will be of interest to scholars in forensic linguistics corpus linguistics stylistics and criminology

NOVEL SINGLE-VALUED NEUTROSOPHIC AGGREGATED OPERATORS UNDER FRANK NORM OPERATION AND ITS APPLICATION TO DECISION-MAKING PROCESS Nancy & Harish Garg,
Uncertainties play a dominant role during the aggregation process and hence their corresponding decisions are made fuzzier Single value neutrosophic numbers SVNNS contain the three ranges truth indeterminacy and falsity membership degrees and are very useful for describing and handling the uncertainties in the day to day life situations In this study some operations of SVNNS such as sum product and scalar multiplication are defined under Frank norm operations and based on it some averaging and geometric aggregation operators have been developed We further establish some of its properties Moreover a decision making method based on the proposed operators is established and illustrated with a numerical example

As recognized, adventure as competently as experience more or less lesson, amusement, as with ease as treaty can be gotten by just checking out a ebook **2014 Gradepure Maths 3rd Term Exemplar** after that it is not directly done, you could agree to even more nearly this life, regarding the world.

We meet the expense of you this proper as competently as simple mannerism to get those all. We come up with the money for 2014 Gradepure Maths 3rd Term Exemplar and numerous book collections from fictions to scientific research in any way. along with them is this 2014 Gradepure Maths 3rd Term Exemplar that can be your partner.
