Know Thy Enemy Meir Litvak, 2021-03-22 In Know Thy Enemy Meir Litvak analyzes the re-articulations of the Others in modern Shi'ism as a novel way to examine the formulation of modern Shi'i identity and place in the world. Among these Others which have transformed into enemies in the modern period are the West apostates, Wahhabism, Jews, Baha'is, and feminism. Looking at the rhetorical themes that Shi'i writers use, the book demonstrates the contrast between the collective positive 'We' and the negative threatening 'Other' as a major principle in the evolution of Shi'ism as the minority branch of Islam. It offers a complex view of Shi'i identity combining a sense of victimhood and insecurity together with conviction of intellectual and moral superiority and long-term triumph.

Developing Historical Thinkers Bruce A. Lesh, 2023 This practical book addresses the consistent questions that were posed by secondary social studies teachers during professional learning sessions. In particular, it examines ways to break through the inclination and perception expressed by many teachers that 'My kids cannot do that.' Drawing on 22 years as a high school history teacher, 7 years as a state-level curriculum specialist, and extensive work with in-service teachers across the country, the author provides research-based guidance for engaging students in investigating the past. Lesh examines ways to develop effective questions that guide historical inquiry, how to utilize discussion in the classroom, and how to align assessment to inquiry. He also shows teachers how to incorporate difficult histories within an inquiry framework. Each chapter uses a specific lesson framed by student work to illuminate approaches in real classroom scenarios. Topics include The Pullman Strike of 1894, the Marcus Garvey question, Dust Bowl Migrants, Mao and Communist China, the LGBTQ fight for rights, and multiple lessons from World War I. This follow-up to the author's book *Why Won't You Just Tell Us the Answer?* fills in gaps and expands tools and classroom examples to assist today's teachers. **Book Features:** Offers ways to promote teacher growth as it pertains to historical thinking; Demonstrates how to align investigating the past with the needs of reluctant readers and students with special needs; Provides lesson materials and instructional guidance; Addresses how to teach difficult subjects such as LGBTQ history; Aligns historical literacy with inquiry-based instruction.

extensive fieldwork and almost 150 interviews this ethnographic study reveals a distinctly postcolonial condition of policing. Mutually reinforcing phenomena of militarisation and informality have been exacerbated by an insecure state that routinely conflates combatting crime, maintaining public order and ensuring national security. This is evident not only in spectacular displays of violence and malpractice but also in police officers' routine work. Caught in the middle of the country's armed conflicts, their encounters with both state and society are a story of insecurity and uncertainty. **Globalization,**

Nationalism, and Music Education in the Twenty-First Century in Greater China Wai-Chung Ho, 2025-10-01

Globalization, Nationalism and Music Education in the Twenty-First Century in Greater China examines the recent developments in school education and music education in Greater China Mainland China Hong Kong and Taiwan and the relationship between and integration of national cultural identity and globalization in their respective school curriculums. Regardless of their common history and cultural backgrounds in recent decades these localities have experienced divergent political cultural and educational structures. Through an analysis of the literature, official curriculum documents, approved music textbooks and a survey questionnaire and in depth interviews with music teachers this book also examines the ways in which policies for national identity formation and globalization interact to complement and contradict each other in the context of music education in respect to national and cultural values in the three territories. Wai Chung Ho's substantive research interests include the sociology of music, China's education system and the comparative study of East Asian music education. Her research focuses on education and development with an emphasis on the impact of the interplay between globalization, nationalization and localization on cultural development and school music education. **Advanced**
