## QUESTION 1: SOURCE-BASED SECTION

### THE COLD WAR IN EUROPE

- Before the end of World War II, the Western European countries and the Soviet Union began to grow suspicious of each other.
- The lack of trust and co-operation between the USA and USSR in particular, led to what is commonly referred to as the Cold War.

#### *What was the Cold War?*

- The Cold War was a series of mounting tensions between the two super-powers, each representing differing ideologies.
- On the one hand the USA symbolised a capitalist, democratic system and the USSR or Russia, stood for the principles of communism and a one-party system of government.
- The struggles between the two sides, the East vs the West, was an indirect conflict and usually at considerable risk to global peace.
- At times, the cold war became 'warm' and threatened to develop into full scale, 'hot' war - but one of the two powers always backed down at the last minute and thus the cold war continued for a lengthy period.

#### *Origins of the Cold War*

- After World War II, the Allied Powers had several conferences to discuss the future of Germany and the reconstruction of Europe.
- In February 1945, the Yalta Conference was held in the Soviet Union and the following was decided upon by the Big Three (Russia, USA, and Britain):
  - **That Germany be divided into four Zones of occupation - Russian, American, British and French.**
  - **Berlin, the capital of Germany, which was situated in the Russian Zone, be divided into four sections, one for each of the 4 major**

A History of Victims of Crime Stephen Strauss-Walsh,2023-05-19 This book examines the evolution of the contemporary crime victim s procedural place within modern Western societies Taking the history of the Irish crime victim as a case study the work charts the place of victims within criminal justice over time This evolves from the expansive latitude that they had during the eighteenth century to their major relegation to witness and informer in the nineteenth and back to a more contemporary recapturing of some of their previous centrality The book also studies what this has meant for the position of suspects and offenders as well as the population more generally Therefore some analysis is devoted to examining its impact on an offender s right to fair trial and social forms It is held that the modern crime victim has transcended its position of marginality This happened not only in law but as the consequence of the victim s new role as a key sociopolitical stakeholder This work flags the importance of victim rights conferrals and the social transformations that engendered such trends In this way victim re emergence is evidenced as being not just a legal change but a consequence of several more recent sociocultural transformations in our societies The book will be of interest to researchers academics and policy makers in criminal law human rights law criminology and legal history

The 2014 Redesign of the Survey of Income and Program Participation National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Committee on National Statistics,Panel on the Review and Evaluation of the 2014 Survey of Income and Program Participation: Content and Design,2018-02-19 The Survey of Income and Program Participation SIPP is a national longitudinal household survey conducted by the Census Bureau SIPP serves as a tool to evaluate the effectiveness of government sponsored social programs and to analyze the impacts of actual or proposed modifications to those programs SIPP was designed to fill a need for data that would give policy makers and researchers a much better grasp of how effectively government programs were reaching their target populations how participation in different programs overlapped and to what extent and under what circumstances people transitioned into and out of these programs SIPP was also designed to answer questions about the short term dynamics of employment living arrangements and economic well being The Census Bureau has reengineered SIPP fielding the initial redesigned survey in 2014 This report evaluates the new design compared with the old design It compares key estimates across the two designs evaluates the content of the redesigned SIPP and the impact of the new design on respondent burden and considers content changes for future improvement of SIPP
