2014 June Zimsec Paperquestions

Rich Mashimbye

2014 June Zimsec Paperquestions:

Mugabeism? Sabelo J. Ndlovu-Gatsheni, 2015-12-26 What is distinctive about this book is its interdisciplinary approach towards deciphering the complex meanings of President Gabriel Mugabe of Zimbabwe making it possible to evaluate Mugabe from a historical political philosophical gender literal and decolonial perspectives It is concerned with capturing various meanings of Mugabeism *Teacher in Zimbabwe*, 2014

The Southern African Development Community in Zimbabwe Rich Mashimbye, 2024-02-13 This book narrates the unravelling of Zimbabwe a country that was once considered an inspiration on the continent of Africa in terms of socioeconomic development Recognising that many factors contributed to the collapse of the nation and that this collapse was a process that occurred over a long period it looks at historical events and processes like the colonisation of the country and dispossession of the indigenous people and the misrule politically motivated violence and economic mismanagement that followed under Robert Mugabe as the pivotal moments that precipitated the subsequent fall of Zimbabwe The book also examines the role that the regional intergovernmental organisation the Southern African Development Community SADC played in trying to help Zimbabwe overcome its security political and economic challenges

Humans and Animals: Intersecting Lives and Worlds Anja Höing, Arieahn Matamonasa Bennett, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Relationships between humans and non human animals are deeply complex and often governed by tensions and paradoxes Both wild and domestic metaphorical and real assistants and adversaries animals effortlessly bridge cultural and natural spaces and form an integral part of human lives This volume addresses several currently debated topics in science and culture How shall we rethink rebuild and re envision our relationships with other animals How do we construct ideas of the animal How can we negotiate animal interests against our own In which ways do we make sense and use of animals in human cultural spaces Addressing the non human animal from the standpoint of various social and cultural constructions from a global and multidisciplinary perspective the chapters within this volume do not seek to answer these questions but rather to draw attention to the complexity of the underlying issues and the manifold dimensions of the animal human bond

Making Politics in Zimbabwe's Second Republic Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt

crisis as well as health and education. Discussing the limitations of these different reform measures, the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic. The book appeals to students, scholars, and researchers of Zimbabwean and African studies, political science, and international relations, as well as policymakers interested in a better understanding of political reform processes.

Political Economy of Post-apartheid South Africa Gumede, Vusi, 2017-05-05. The book, made up of three parts, covers a wide spectrum of political economy issues on post-apartheid South Africa. Although the text is mainly descriptive to explain various areas of the political economy of post-apartheid South Africa, the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty-one years of democracy in the country. The book discusses important aspects of the political history of apartheid South Africa and the evolution of post-apartheid society, including an important recap of the history of southern Africa before colonialism. The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post-apartheid South Africa. The book also updates earlier work of the author on policy and law making, land and agriculture, education and training, as well as on poverty and inequality in post-apartheid South Africa, thereby providing a wide-ranging overview of the socio-economic development approaches followed by the successive post-apartheid administrations. Interestingly, three chapters focus on various aspects of the post-apartheid South African economy: economic policies, economic empowerment, and industrial development. Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure, the book suggests that so far post-apartheid South Africa has mixed socio-economic progress. The author's extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound. The text is useful for anyone who wants to understand the totality of the policies and legislation, as well as the political economy interventions pursued since 1994 by the South African Government.

The African Conundrum Mawere, Munyaradzi, Mubaya, Tapuwa R., 2017-05-22. The African conundrum is rooted out of the historical philosophical and cultural bastardisation, imbalances, and inequalities which many post-colonial African governments have always sought to address, though with varying degrees of success since the 1960s. Lamentably, this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent, past and present. This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North. The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio-economic self-reinvention and self-assertion. While the African conundrum is largely a result of historic oppression and a resilient colonial legacy, this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny. The book argues that it

is through this rethinking that Africa can successfully transcend the logic of post imperial dependency Masculinity, War and Violence Ann-Dorte Christensen, Palle Rasmussen, 2018-04-19 Addressing the relationship between masculinity war and violence this book covers these themes broadly and across different disciplines These analyses are located at different levels public policies at the macro level resistance and independence movements at the meso level and masculine subjectivities processes of mobilization and radicalization at the micro level The ten contributions encompass four recurring themes violent masculinities and how contemporary societies and regimes cope with traditional violent rituals and extreme violence against women popular written and visual fiction about war and masculine rationalities gender relations in social movements of rebellion and national transformation and masculinity in civil society under conditions of war and post war Taking into account different geographical contexts the book emphasizes the relationship between the local and the global as well as the importance of understanding gender and masculinity in their intersectional interrelations with religion race ethnicity class and locality This book was originally published as a special issue of NORMA International Journal for Masculinity Studies

Gendered Spaces, Religion and Migration in Zimbabwe Ezra Chitando, Sophia Chirongoma, Molly Manyonganise, 2022-10-12 This book explores the intersections of gender religion and migration within the context of post independent Zimbabwe with a specific focus on how gender disparities impact economic development By demonstrating how these interconnections impact women s and girls lived realities the book addresses the need for gender equity gender inclusion and gender mainstreaming in both religious and societal institutions This book assesses the gender and migration nexus in Zimbabwe and examines the impact of religio cultural ideologies on the status of women In doing so it assesses the transition of Zimbabwean women across spaces and provides insights into the practical strategies that can be utilised to improve their status both at home and on the move Furthermore chapters show how space continues to be genderised in ways that perpetuate structural inequality to challenge the exclusion of women from key social processes Contributing to ongoing scholarly debates on gender in Africa this book will be of interest to academics and students of Gender Studies Women s Studies African Studies Development Studies as well as advocates of human rights and gender activists **Civil**

Society and the Party-state in Zimbabwe Zenzo Moyo, 2024-08-21 The book utilises Gramsci s concepts of hegemony counter hegemony organic intellectuals and integral state to interrogate how modes of engagement between the state and civil society have contributed to a polarised polity in Zimbabwe and in turn how this has impacted democratisation processes This was achieved by analysing intra civil society interactions and state civil society relations which established deep polarised relationships that can be traced back to the liberation struggle It also interrogates ideologies that drive these polarised relations and how together with material benefits from donors and the party state these relations impact ordinary people s modes of existence One of the arguments that emerge from the book is that political polarisation in Zimbabwe has now morphed into an established political culture that has played a huge role in the retardation of democratic struggles It

uses ideas of entangled modernities and travelling theory to cast doubt on the belief that civil society is the missing key in the democratisation of developing countries
