Shape-Shifting Capital George González,2015-05-20 Shape Shifting Capital Spiritual Management Critical Theory and the Ethnographic Project is positioned at the intersection of anthropology critical theory and philosophy of religion First Gonz lez explores the phenomena of workplace spirituality in a language that is accessible to a general readership Taking contemporary trends in organizational management as a case study he argues by way of a detailed ethnographic study of practitioners of workplace spirituality that the conceptual and institutional boundaries between religion science and capitalism are being redrawn by theologized management appropriations of tropes borrowed from creativity theory and quantum mechanics Second Gonz lez makes a case for a critical anthropology of religion that combines existential concerns for biography and intentionality with poststructuralist concerns for power arguing that the ways in which the personalization of metaphor bridges personal and social histories also helps bring about broader epistemic shifts in society Finally in a postsecular age in which capitalism itself is explicitly and confidently spiritual Gonz lez suggests that it is imperative to

reorient our critical energies towards a present day evaluation of postmodern capitalism's boundary blurring. Gonzalez further argues that the kind of existential deconstruction performed by what he calls existential archeology can serve the needs of any social criticism of neoliberal religion and corporate spirituality.

This thriving community has opened new arenas of scholarly discourse on Black Atlantic history beyond the trans Atlantic slave trade and its legacies. This book investigates the complex dynamic forces that have shaped and continue to shape this new diaspora. In eleven original essays, the volume examines pertinent themes such as immigration, integration, dilemmas, identity, construction, brain drain, remittances, expanding African religious space and how these dynamics impact and intersect with the African homeland. With contributors from both sides of the Atlantic that represent a diverse range of academic disciplines, this book offers a broad perspective on emerging themes in contemporary African diasporan experiences. The book will be of interest to scholars and students of African and African American Studies, Sociology and History.
