2014 November Business Studies Paper Memorandum

Adam Fejerskov

2014 November Business Studies Paper Memorandum:

Oral History and Business Robert Crawford, Matthew Bailey, 2022-08-22 This book introduces business historians to oral history methodologies and approaches Using four distinct oral history case studies to explore ideas of disruption and continuity in business history over the second half of the twentieth century Robert Crawford and Matthew Bailey demonstrate how critical engagement with oral history approaches serves to enhance and enliven business history as well as its relationship with other historical fields The focus on disruption is used to encompass a broad set of processes such as technological change the impact of external forces informal business networks social constructions of gender knowledge transfer firm adaptability and cultural change The use of oral histories to interpret responses to disruption in the past and to explore the features characterising business continuity provides an opportunity to consider the human dimensions subjective experiences and personal insights of workplace firm and industry change It also sheds light on the ways that people and firms respond to disruptive forces through innovation and adaptation both successfully and unsuccessfully This succinct and accessible account is essential reading for business historians with little experience in using oral history as well as those looking to gain deeper insights from their oral history data The Global Lab Adam Fejerskov, 2022 The Global Lab examines how new technologies affect people across the world opening up new opportunities but also exacerbating inequalities in society *Ethical Business Practice and Regulation* Christopher Hodges, Ruth Steinholtz, AreteWork LLP, 2018-01-11 This book explains the concepts of Ethical Business Practice EBP and Ethical Business Regulation EBR a new paradigm in compliance and enforcement based on behavioural science and ethics EBR provides the basis for an effective relationship between a business and its regulators resulting in better outcomes for both EBR is attracting extensive attention from regulators and businesses around the world The UK Government's 2017 Regulatory Futures Review draws on EBR as the foundation for its policy of regulatory self assurance EBR draws on findings from behavioural science responsive regulation safety and business and integrity management to create a practical and holistic approach Examples include the open culture that is essential for civil aviation safety the Primary Authority agreements between regulators and national businesses and feedback mechanisms provided by market vigilance systems and sectoral consumer ombudsmen This book provides an essential blueprint for sustainable business and effective future regulation **Competition Law and Economics** Jay P. Choi, Wonhyuk Lim, Sang-Hyop Lee, 2020-04-24 In this exciting new book an international team of experts compare market structures in both global and Korean contexts particularly focusing on the impact of foreign competition on market concentration and ways to improve market structure It thoroughly investigates core competition problems including international abuses of dominance mergers and collusion and vertical restraints Contributions move beyond explaining the laws and practices of enforcement agencies offering readers an insight into the trend of an ever increasing interdependence among national economies complemented by analyses of recent developments in the US and Canada **China's Belt and**

Road Initiative The International Institute for Strategic Studies (IISS),2022-12-16 The IISS Strategic Dossier China s Belt and Road Initiative provides a geopolitical and geo economic assessment of President Xi Jinping s flagship foreign policy initiative The dossier explores the Belt and Road Initiative s role in China s domestic industrial strategy and in the country s growing influence around the world It studies how Beijing s ambitions management and financing of the initiative have evolved since its launch in 2013 In addition the volume reflects on the future of China s initiative following the COVID 19 pandemic The dossier is organised around a region by region assessment of what Beijing has sought to achieve in different countries and how the Belt and Road Initiative has played out over time The volume examines recipient countries responses to the Belt and Road Initiative and how these have affected it It also looks at responses from other global and regional powers to China s economic activities around the world and offers thoughts on ways the West might better contend with Beijing s geo economic influence

Politics and Pan-Africanism Dawn Nagar,2019-12-12 Offering an examination of the diplomatic and economic regional power structures in Africa and their relationships with each other Dawn Nagar discusses the potential and future of pan Africanism The three primary regional economic communities RECs that are recognised by the African Union as the key building blocks of a united Africa are examined these are the Common Market for Eastern and Southern Africa COMESA the East African Community EAC and the Southern African Development Community SADC These RECS include Africa s major economies Egypt South Africa and Kenya but are also home to Africa s most conflict prone and volatile states the Democratic Republic of the Congo DRC Burundi South Sudan Somalia and Lesotho Providing a detailed overview of the current relationship between these power blocs this book provides insight into the current state of diplomatic and economic relations within Africa and shows how far there is to go for a future of Pan Africanism

International Arbitration in the Energy Sector Maxi Scherer,2018-02-22 Disputes in the energy and natural resources sector are at the heart of international arbitration With more arbitrations arising in the international energy sector than in any other sector it is not surprising that the highest valued awards in the history of arbitration come from energy related arbitrations Energy disputes often involve complex and controversial issues relating to security sovereignty and public welfare International Arbitration in the Energy Sector puts international energy disputes into a global context providing broad coverage of different forms and systems of dispute resolution across both renewable and non renewable sectors With contributions from leading arbitrators academics and industry experts from across the globe the twenty chapters in the book enable readers to compare the approaches to and learnings from energy arbitrations across various legal systems and geographic regions After outlining the international energy arbitration legal framework in Part I the text delves into a detailed analysis of the problems which regularly arise in practice These include among other things commercial disputes in Part II e g over the upstream oil sector and long term gas supply contracts investor state disputes in Part III e g under the Energy Charter Treaty and public international law disputes in Part IV e g concerning international boundaries and the distribution of natural resources

Alongside recent developments in the international energy sector attention is given to climate and sustainable development disputes which raise important questions about enforcing sustainability objectives on individuals corporations and states Backed by analyses of arbitral awards national court and international tribunal decisions treaties and other international legal instruments as well as current events and news in the energy industry this text offers a unique contribution to international energy literature and provides insightful commentary on the prevalent issues in the field It is essential reading for any practitioner or researcher in the energy and natural resources sector

Deglobalization 2.0 Peter A.G. van Bergeijk, 2019 *Deglobalization 2.0* argues that Trump and Brexit are the symptoms and not the causes of a long sequence of alternating phases of globalization and deglobalization driven by increasing income inequality and the retreat from the global stage by a contested hegemon Providing rich empirical details Peter van Bergeijk investigates similarities and differences between the Great Depression of the 1930s and the Great Recession and its aftermath of a slowdown in global trade Providing an overview of recent findings and a discussion of contributions from several disciplines the book investigates scenarios for the future of the economic world order and proposes possible solutions

Oversight of the Antitrust Enforcement Agencies United States. Congress. House. Committee on the Judiciary. Subcommittee on Regulatory Reform, Commercial and Antitrust Law, 2015

Through Times of Trouble Anna Matveeva, 2017-12-20 This book tells the story of insurgency in Ukraine's Donbas region from the perspective of the rebels who sought and continue to seek either independence from Ukraine or unification with Russia As such it provides a unique insight into their thinking and motivations which need to be understood if the conflict is to be resolved Those making and remaking the conflict are placed in the centre of the story which uses the words of the combatants themselves It shows how volunteer fighters driven by a wide and diffuse set of motivations emerged from Ukraine Russia and different parts of the world stood at the rebellion's heart The book focuses on the participants' own voices and personalities drawing extensively on first hand research and interviews Rather than rendering Ukraine a chess piece on the geopolitical board the rebellion shows that ordinary people rather than elites can act as a decisive force Donbas says something about why large numbers of people make the decision to take part in a collective violent action when material rewards are low or non-existent and mortal risks high It stands as an important text on the study of modern insurgencies revealing how violent conflicts happen via issues of politicized identity and involvement of non-state actors This book places this conflict into the context of other conflicts worldwide and demonstrates how ideas and narratives are constructed to provide meaning to a struggle The insurgency has produced a conflict sub-culture rich with symbolism narrative and communications made possible by the digital age and a social media savvy population These beliefs and ideas have had the power to pull people from different parts of the world This book follows the stages of assembling different conflict ingredients together and the rebellion's zigzagging fortunes after it became apparent that Moscow was not going to repeat the Crimea scenario in Donbas It analyses the logic of armed struggle and the tactics deployed by warring

parties It also sheds light on the developments in Moscow discusses the phenomenon of the Russian Spring movement and concludes with the prospects for a peaceful solution
