O'Brien, 2023-07-21 This timely book examines what a meaningful school accountability system could look like in England. It moves on to show how Ofsted and school inspections are perceived and portrayed using first-hand accounts, academic papers, government publications, and media reports, and pulls together some of the current thinking on how the model could be improved. The author ends with her own proposals for a more meaningful and humane school accountability system. She suggests we rethink what we do and how we do it, with a call for wide-ranging consultation leading to evidence-informed reform of the school inspection process.
